# COSME PROGRAMME

**Showcasing EU design, creativity and innovation as the core of the European fashion and high end industries**

*'A story of fusion between creative minds, fashion designers, crafters and makers'*

**DeFINE – Fashion-Tech Innovation Network  
for Europe – Première Vision - Paris 12-13 February 2019**

Piedad RIVAS  
Project Manager  
European Commission – Executive Agency for SMEs (EASME)

Why EU supports creativity and innovation and fashion professionals and SMEs?

Why the light industry sectors fashion/clothing/textile/footwear and leather are important to create growth and jobs in Europe?

- Textiles and clothing play an important role in the European manufacturing industry
- Employs 1.7 million people and generates a turnover of EUR 166 billion.
- The main challenge for the industry sector is to maintain its competitiveness moving towards products with higher value added.

- Manufacturers and makers in fashion and lifestyle consumer goods such as textiles-clothing, footwear, fur, leather and leather products, jewellery, accessories, handbags are a major pillar of EU creative industries.
- These industry sectors represent a total annual turnover of approx. € 500 billion and an economic value added of € 150 billion while employing 5 million people across the EU.

-The vast majority of enterprises in the sector are SMEs, small business, self-employed, micro-companies and individual craftsmen whose unique competencies, techniques and know-how are often not translated into competitive strengths.

-Manufacturing SMEs in the textile/clothing/footwear and leather face difficulties to integrate new technologies, innovative design knowledge and to collaborate with designers and creative minds.

On the other hand, Europe is leader in creativity and innovation and **has the most creative designers in the world**. Still, they often lack practical knowledge related to manufacturing processes and have difficulties in finding EU manufacturers to produce their collections.

This is why the European Commission supports design, creativity and innovation as the core of EU *fashion and high end industries* in many ways

**HOW?** Through COSME programme – the programme for the competitiveness of SMEs

In many ways and angles : education, research, and cross-disciplinary collaboration with other industry sectors.

1. Providing **financial support** to SMEs and starts up for collaborative and innovative concepts/solutions/ideas for market uptake
2. Raising capacities and **skills (training/coaching)**, cross-disciplinary collaboration and fusion between traditional/new skills
3. Promoting **entrepreneurship and cross disciplinary thinking**
4. Promoting the adoption of **new technologies**

## EU funding programmes 2014-2020

COSME: Competitiveness of SMEs

- €2.3 billion

Creative Europe: cultural and creative industries

- €1.46 billion

Horizon 2020: research and innovation

- €80 billion

Erasmus+ Education, training, youth

- 14.7 billion

European Structural and Investment Funds + EFSI

## Market uptake projects - Design-based consumer goods for SMEs

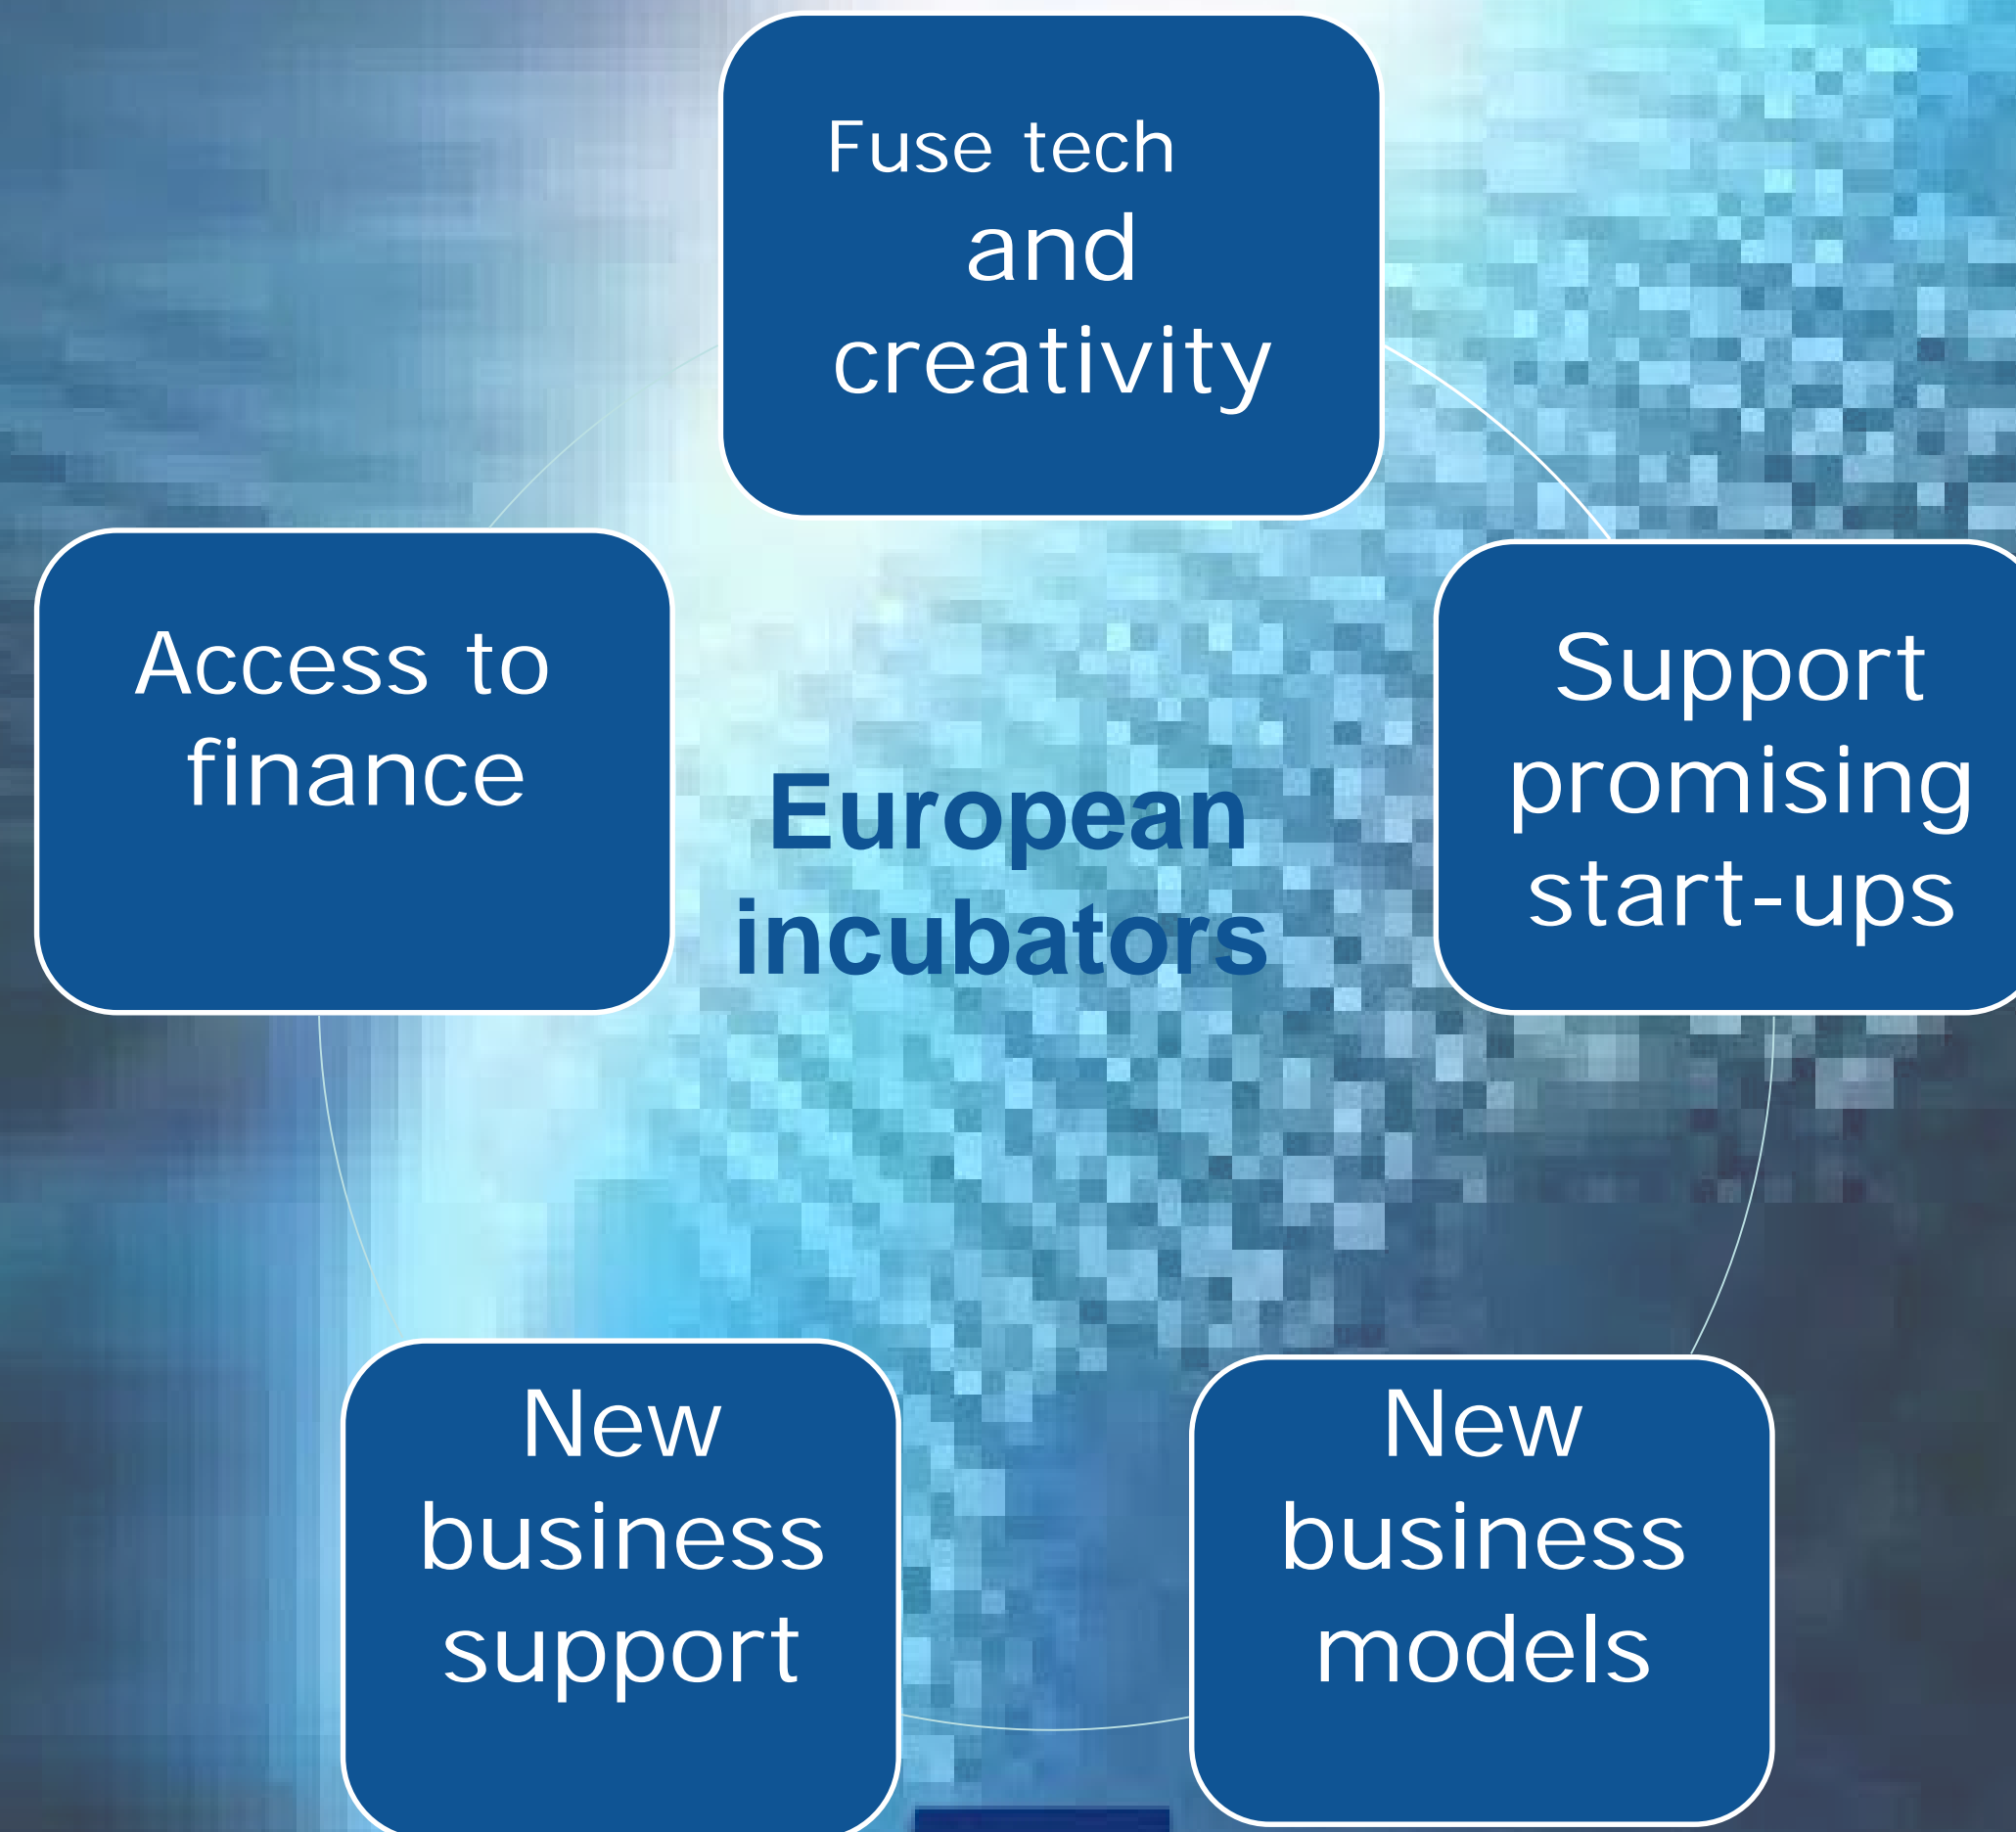

## European Incubation Networks for creativity-driven innovation

- ❑ to support creation, incubation and scaling-up of companies in cultural and creative industries (CCIs) through cross-national, incubators-driven action focusing on innovation and development of new business models by a fusion between creative, art and design skills with technology, science and other relevant expertise.
- ❑ **1 transnational network focussing on FashionTech**
- ❑ **DeFINE – Fashion-Tech Innovation Network for Europe**

## Creativity + technology = EU network of incubators

# **WORTH Partnership Project -** **<http://www.worthproject.eu/>**

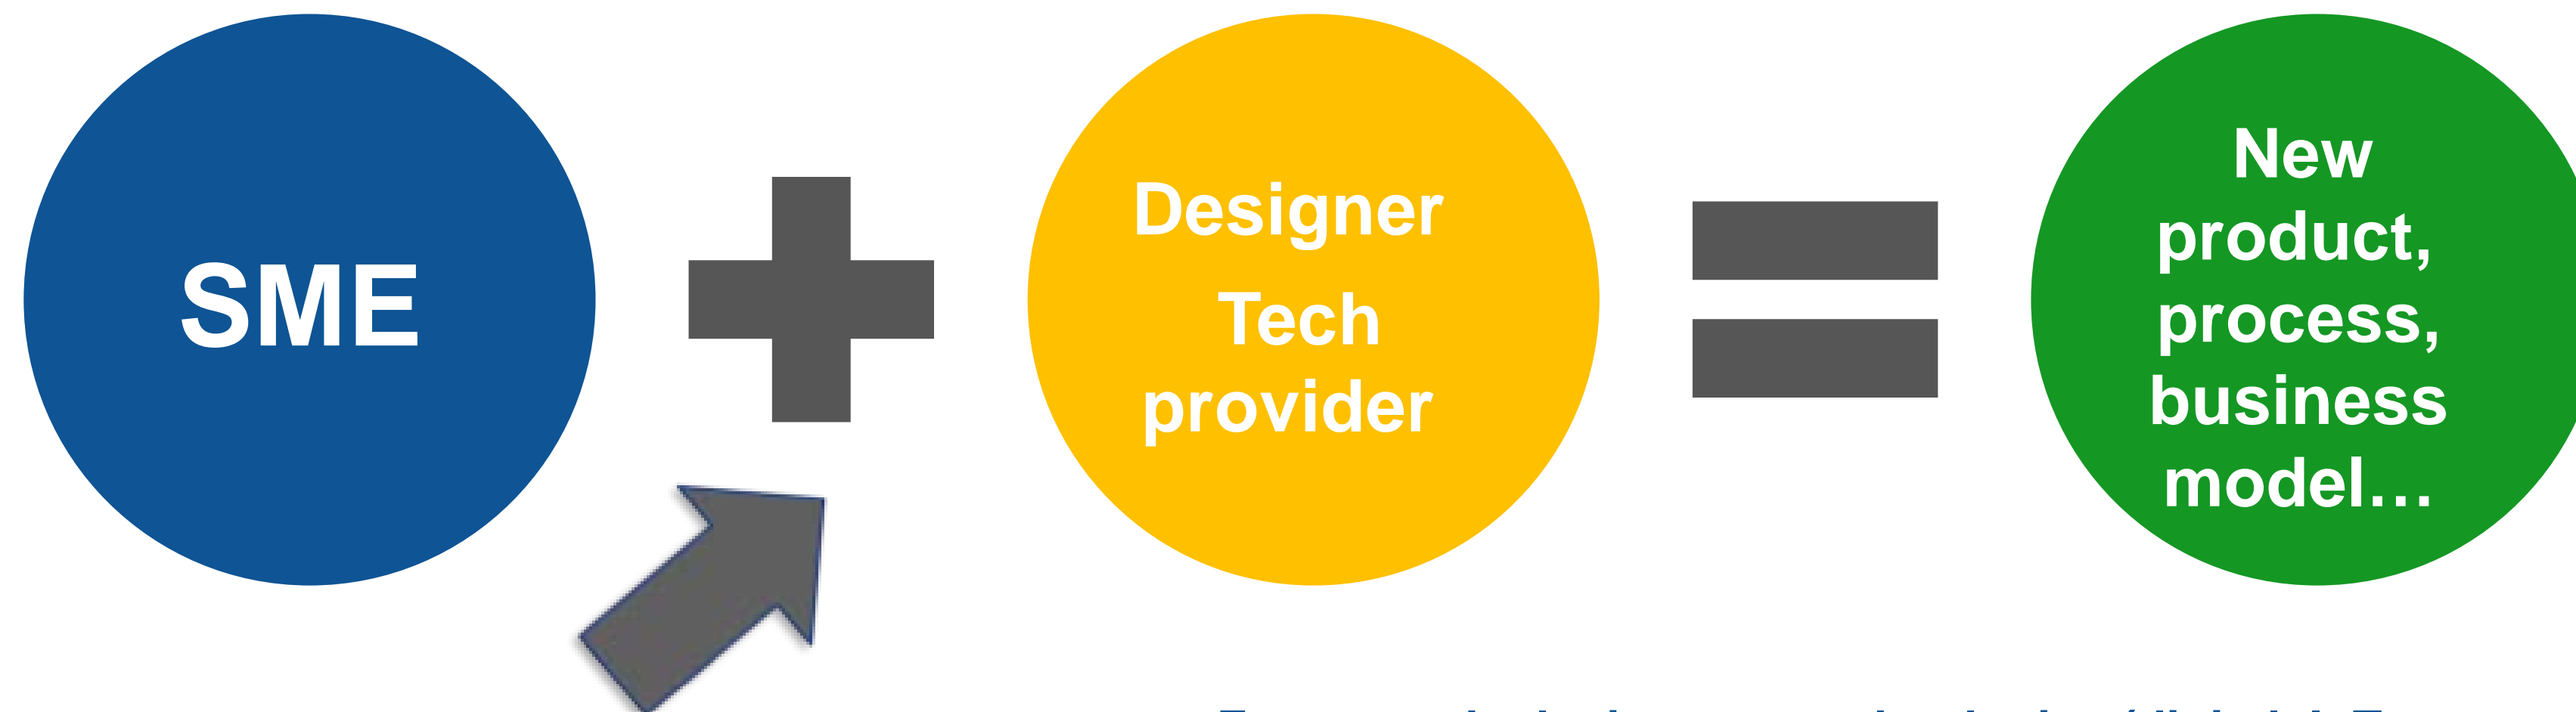

Supporting creative minds  
to develop innovative  
products by adopting new  
techniques and processes

## WORTH Partnership Project – 4 years

**New Call OPENS in APRIL 2019**

Trans-national partnerships  
€10,000 + coaching and support

Focus on deploying new technologies (digital, IoT, Virtual/Augmented reality...) in innovative manufacturing SMEs and micro-enterprises.

## Charles Frederick Worth: Fashion's First Superstar

- Charles Frederick Worth (1825–1895)
- Worth was the first to sign a dress with a label
- He was the first to make clothes that exemplified his "brand"
- He developed the concept of *maison de couture* and is '*the first global designer*'

## WORTH Partnership Project

- ❑ The core belief is that creative industries (SMEs and start-ups) are key drivers of economic growth in Europe.
- ❑ That's why WORTH
  - supports collaborations between SMEs and start-up fashion designers, crafters, manufacturers and technology firms to create innovative and design-driven products and ideas with an added-value

## WORTH Partnership Project — **what's in it for fashion designers/crafters/makers?**

- ❓ The selected partnerships will receive financial and capacity building support to exchange knowledge and skills between manufacturing, creative and technology companies with:
- A small amount of seed money
  - Individual coaching and advice on product market positioning and branding and IPR
  - Participation in two of the top international industry fairs and exhibitions,
  - Networking and cross-disciplinary collaboration, and product development

## WORTH Partnership Project –

- ❑ The partnerships are formed by partners from SMEs working in the fashion and consumer goods industry across Europe operating in following industry sectors: **fashion/textile, footwear, leather, jewellery, accessories, furniture and home decoration.**
- ❑ 25 innovative partnerships are now on motion
- ❑ 2<sup>nd</sup> selection on-going
- ❑ Next Call Calling IN APRIL 2019

## WORTH Partnership Project –Showcase examples

-  [Elisa Palomino, Campomaggi & Caterina L. Atlantic Leather](#) –Clutch bags made of fish leather processed inspired in Iceland traditional handcrafts and Japanese water painting techniques using ink water and no additives.

- ❓ [BasFroon Studio and A+Z Design textile](#) Unique acoustic interior panels, digitally manufactured, micro-moulded made of recycled textiles

- ? [ElisabethJayot & Wemake](#) – Modular clothing made of seamless, reversible and repositionable pieces that can be rearranged without a sewing machine

- 2 [Adbuse Castellari & Geoband](#) – Quality bags, made of ecological leather, with tracking system and panic button

# CALL FOR PROJECTS

---

# CALL FOR PROJECTS

## Objectives:

Select and induct 25 start-ups/SMEs onto a bespoke mentoring programme, focused on helping them develop their innovative ideas and improve on their innovation management practices.

To provide 80 hours of mentoring support to each of the 25 businesses, to guide them through the innovation process.

By the end of the mentoring, the businesses should each have a prototype or proof of concept of a new product, process or new business model.

# CALL FOR PROJECTS

**CALENDAR : 2 TRANCHES**

**1ST TRANCHE FROM APRIL 2019 TILL MAY 2020**

**2<sup>ND</sup> AND LAST : FROM JANUARY 2020 TILL FEBRUARY 2021**

---

- **By end of March 2019 : all details posted on website + tutorial**
- **April 4th 2019 : « expressions of interest » : simple form to make contact and explain your project**
  - **we contact you to help you turn this project into a viable competitive proposal**
  - **we can offer you to attend a Bootcamp to receive preparation and training in sessions with 30 project applicants in London or Berlin**
- **June 3rd – August 15th : Call for Projects is open to collect your finalized proposals**
- **Beginning September 2019 : Advisory Board analyzes proposals and elects up to 13 projects**
- **September 18th 2019 : Winners list is announced ..... and then....**

- **Coaching and mentoring can begin in September 2019**
- **Tailored to the needs of each project team**
- **A total of 80 hours**
- **Over an 8 month period**
- **May 2020 approx. : final presentation of projects outcome and results (TBD)**

# CALL FOR PROJECTS

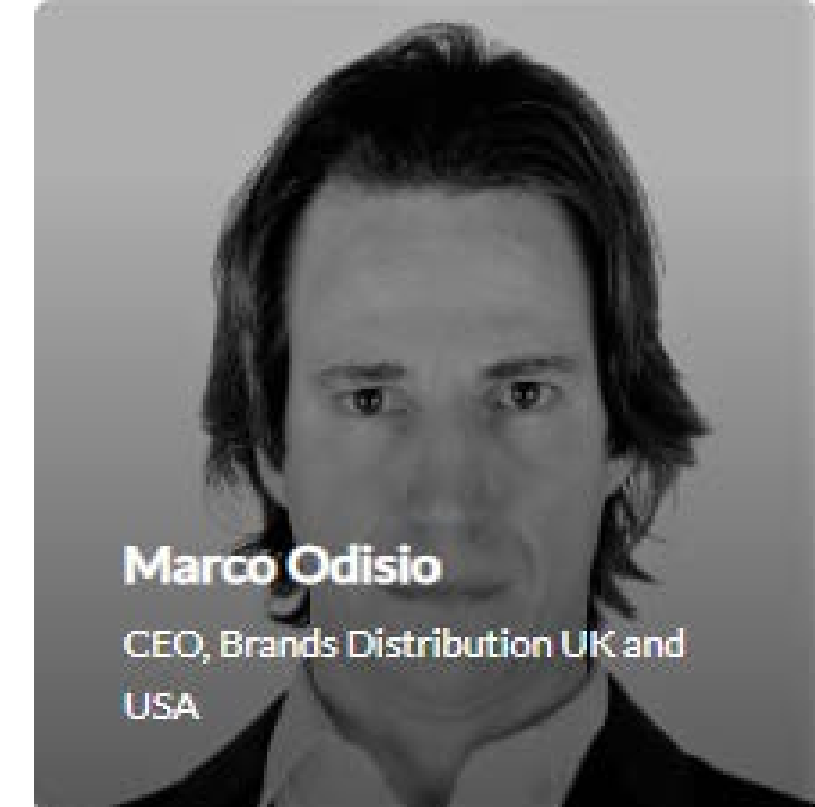

Who is concerned? Start-ups, micro- and small businesses in fashion and in technology

---

For what kind of projects ?

- Fashion + tech
- Innovation in product, service, process, business model
- Selection made by an Advisory Board

# ADVISORY BOARD AND SELECTION COMMITTEE

# CALL FOR PROJECTS

## Selection criteria

The Selection Committee will assess the following characteristics for each project:

---

- Originality and degree of innovation
- Strategic and market relevance and added value for involved business
- Strategic relevance and added value for the EU fashion industry competitiveness

## **REMEMBER !**

- **By end of March 2019 : all details posted on website + tutorial**
- **[www.define-network.eu](http://www.define-network.eu)**

**Good luck to all project holders!**

**Thanks for your attention**

TRANSPARENCY**

# PERSONALIZATION AT SCALE

**Context is everything.** Expectations of instant personalization and context relevance are key driver for *customer's attraction and retention*.

**61%** of shoppers **feel** more **positively** about a brand when the promotional outreach and marketing messages they receive are **personalized**.

**65%** of consumers are **more likely to buy** from a retailer if they are recognized, remembered and if they receive **relevant recommendations**.

**54%** of consumers **expect** to receive a **personalized discount** within 24 hours of making themselves known to a brand, and **71%** express **frustration** at **impersonal shopping experiences**.

RELEVANT TECHNOLOGIES:

ARTIFICIAL INTELLIGENCE

BIG DATA

# PERSONALIZATION AT SCALE

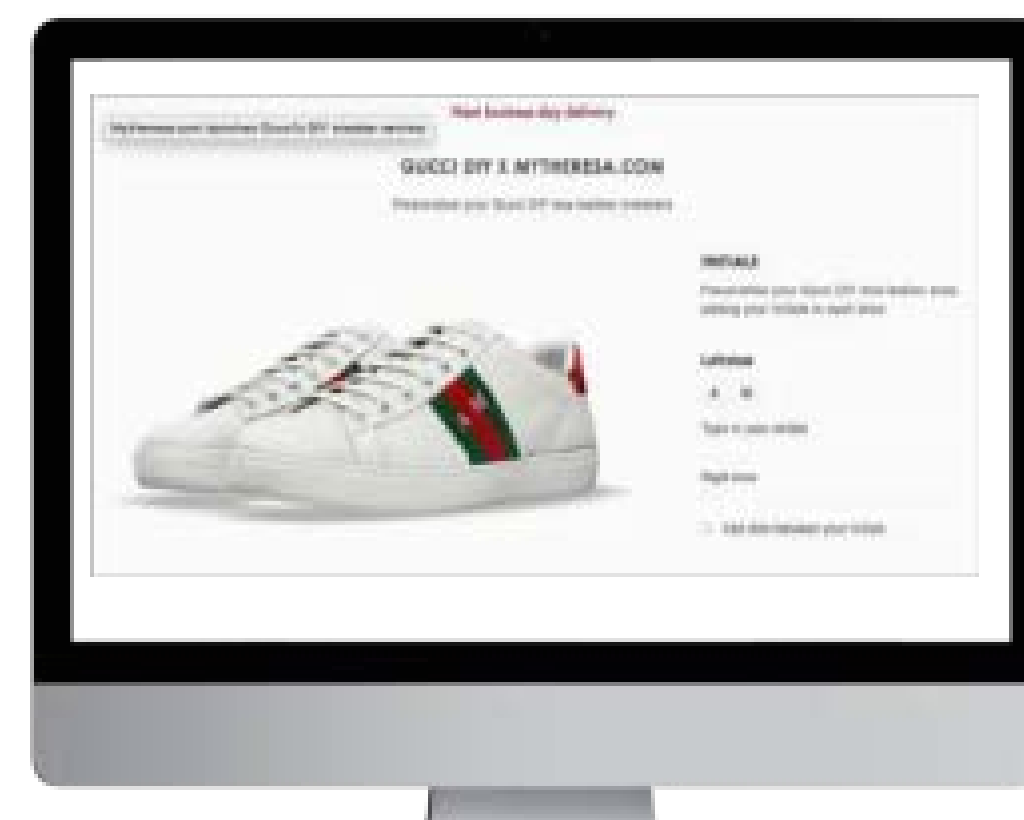

**Stitch Fix:** online styling service

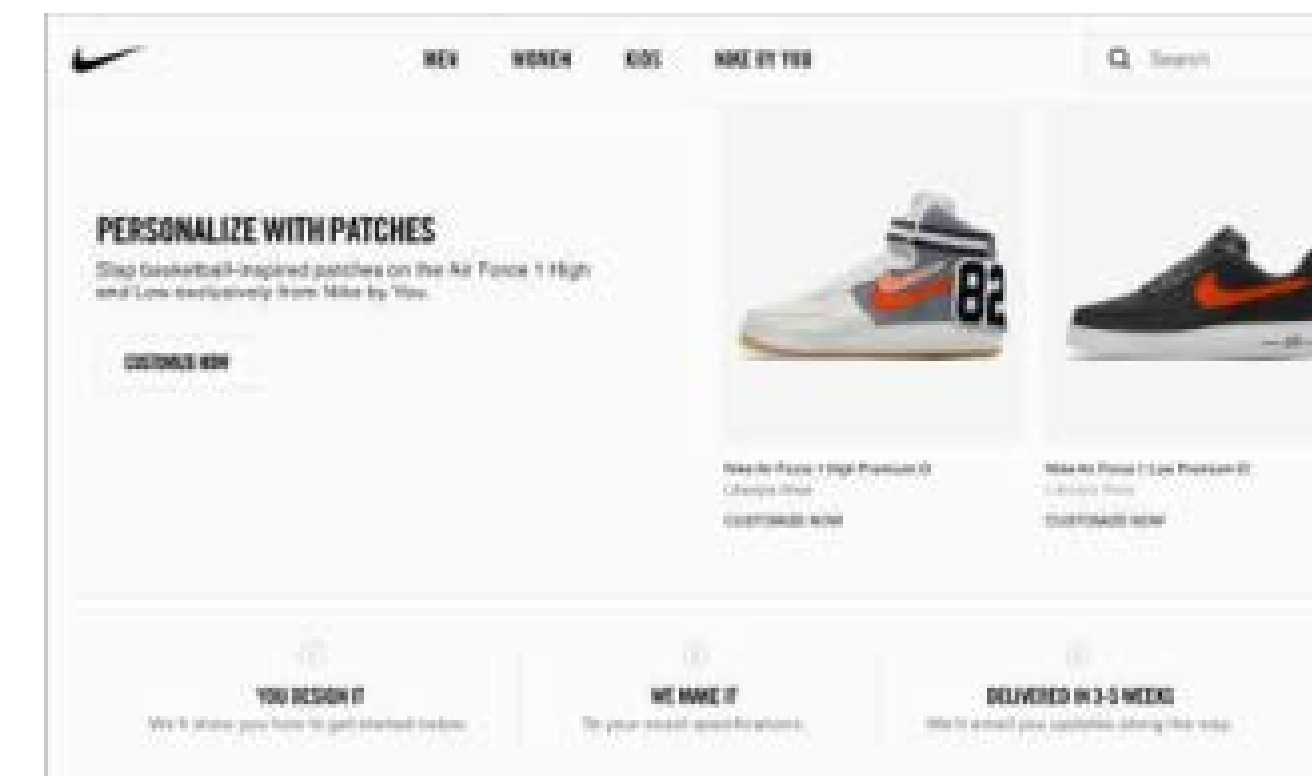

**Hebe Studio:** create tailored suits

**Mytheresa.com** opportunity to personalize Gucci trainers online.

**Nike by You:** opportunity to personalize Nikes shoes.

# SUPERIOR CUSTOMER SERVICE

**90%** of shoppers say that a **convenient return policy** and **free shipping** are the **most important features** during their online luxury experience.

**51s** The average **time** for customer service's **first response** that **dropped** by 5s (9.1%) from 2016 to 2017.\*

**59%** of the customers said a **bad experience** caused them to stop buying from a company.

RELEVANT TECHNOLOGIES:

ARTIFICIAL INTELLIGENCE

AUTOMATION

\* <https://www.livechatinc.com/livechat-resources/customer-service-report-2018>

# SUPERIOR CUSTOMER SERVICE

**Syte AI:** Visual recognition for customers to ask what they want to retailers

**Hugo Boss & Uber:** Door-to-door on demand service

Brands as **Adidas** to **Ralph Lauren** are turning to secret apps for VIP customers

**Harper Concierge:** Home-try plus personal stylist system

# AUTOMATED COMMERCE

**Assisted commerce:** Consumers expect retail experiences as an interaction with a «**genie from a lamp**», called forth from a smartphone.

Shoppers will embrace the **outsourcing** of certain **retail experiences** to **algorithms** and **smart devices**. That means the automation of hunting, negotiating, purchasing, delivery arrangements and more.

RELEVANT TECHNOLOGIES:

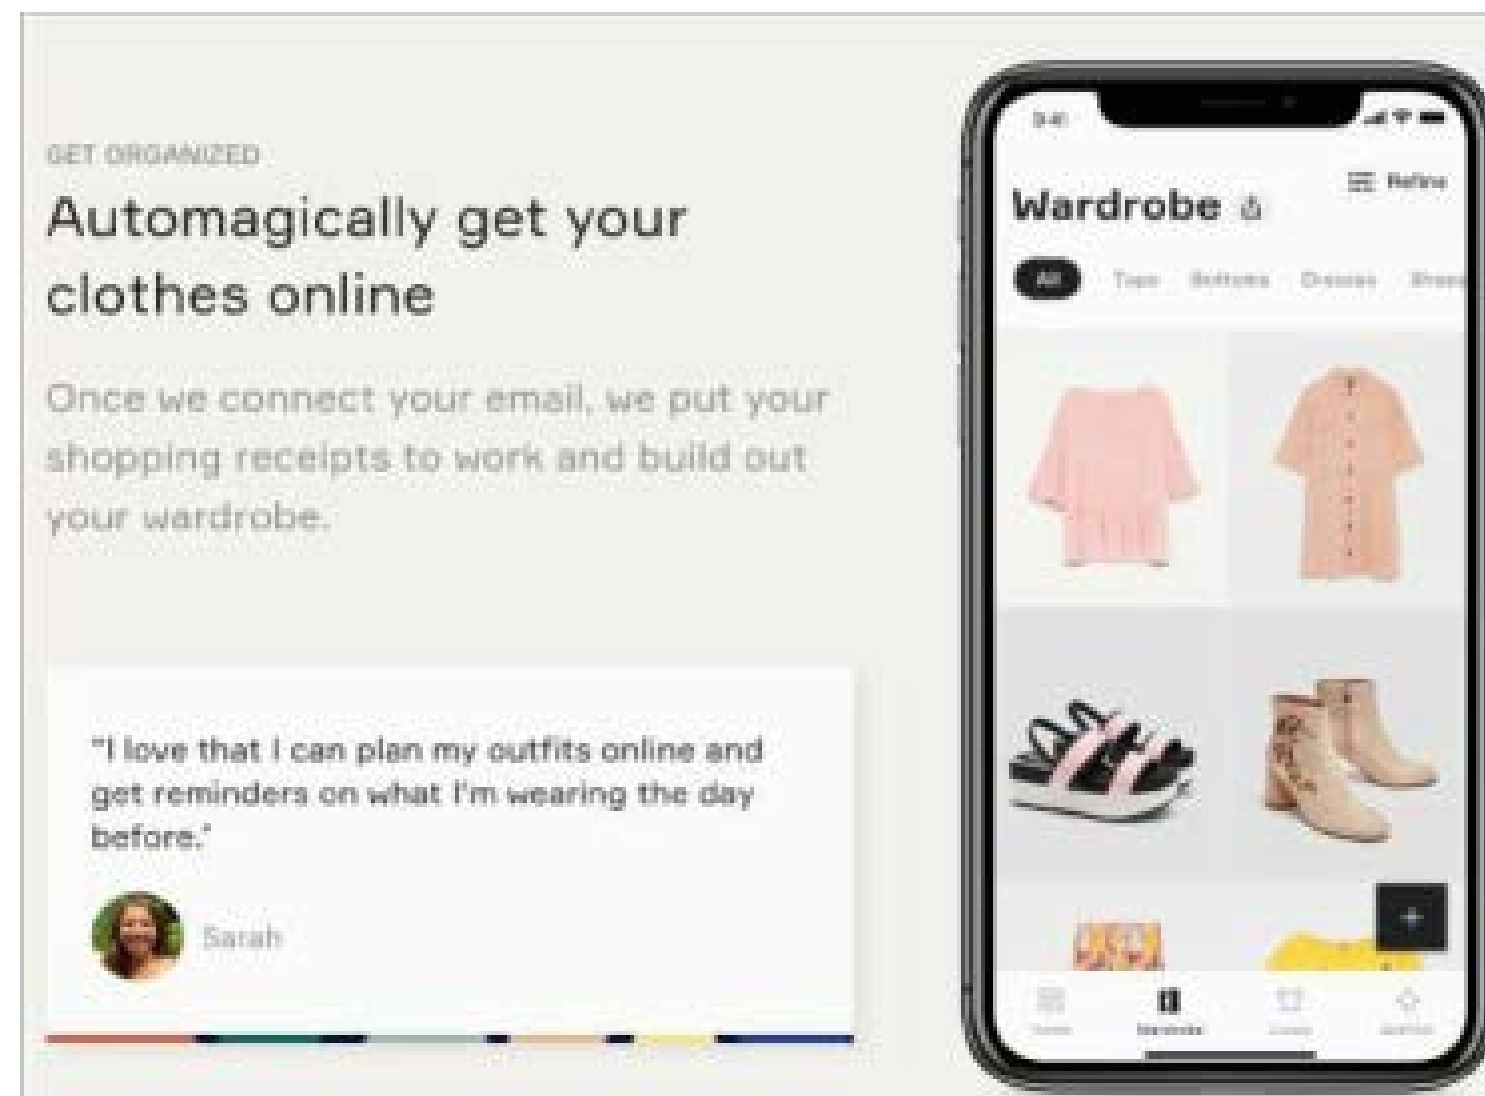

ARTIFICIAL INTELLIGENCE

BIG DATA

# DeFINE Paris - Developing a Fashion-tech Innovation Network for Europe

## ***Intellectual Property Management***

***Paris, 12 February 2019***

***Mrs. Paola Gelato – Partner - Studio Legale  
Jacobacci & Associati***

# EUROPE and ITALY

## Different levels of protection

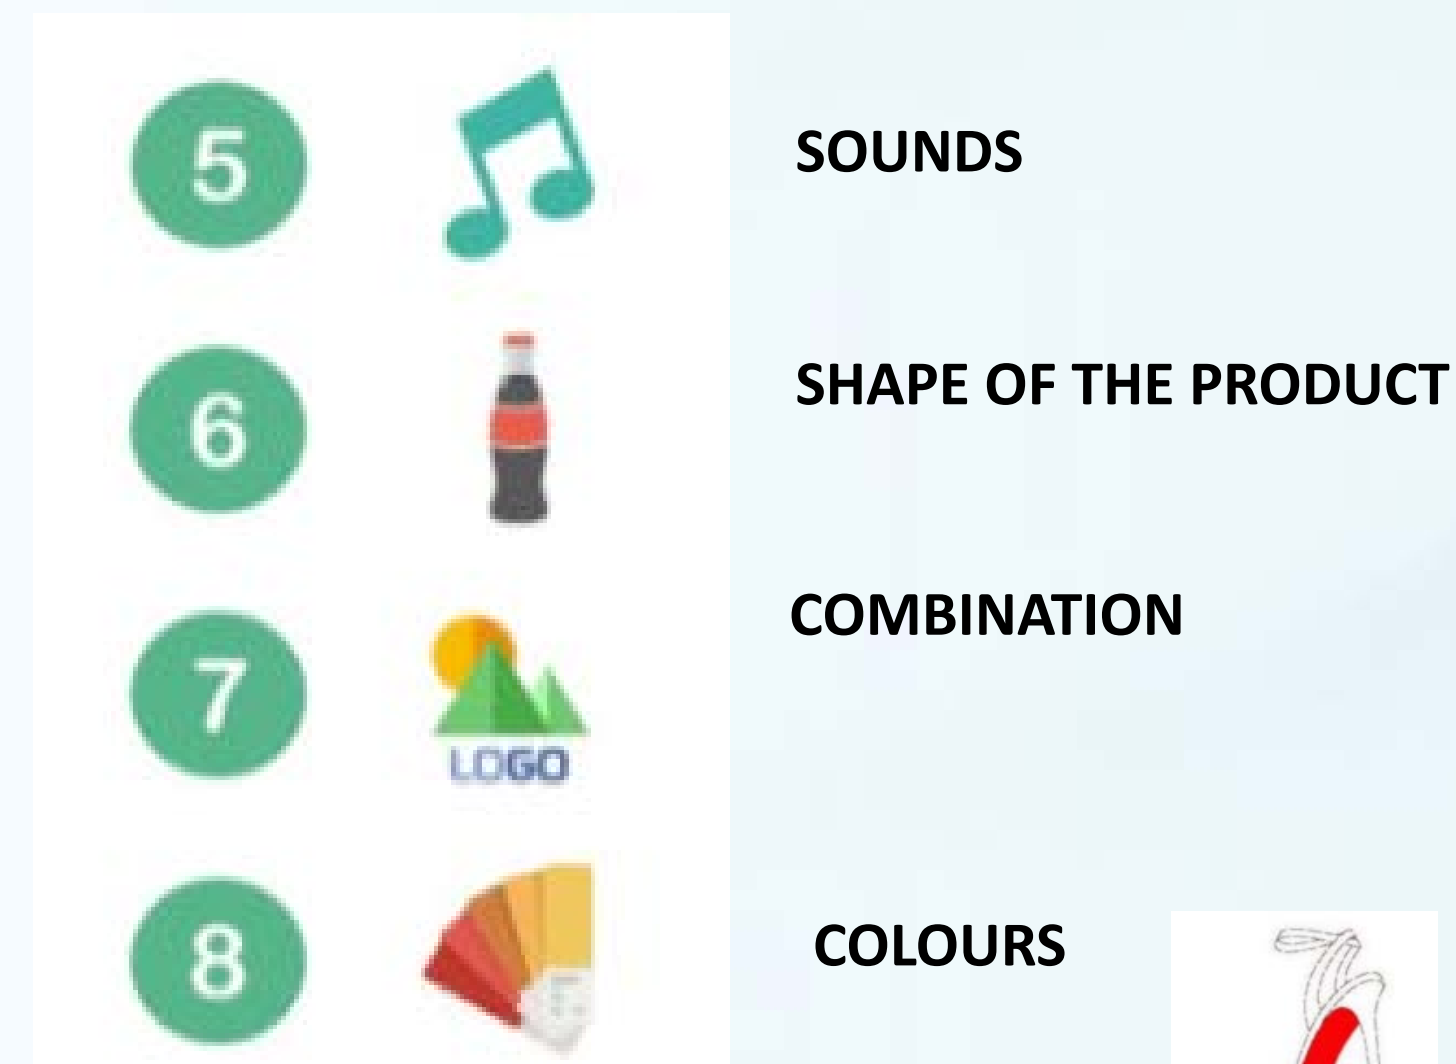

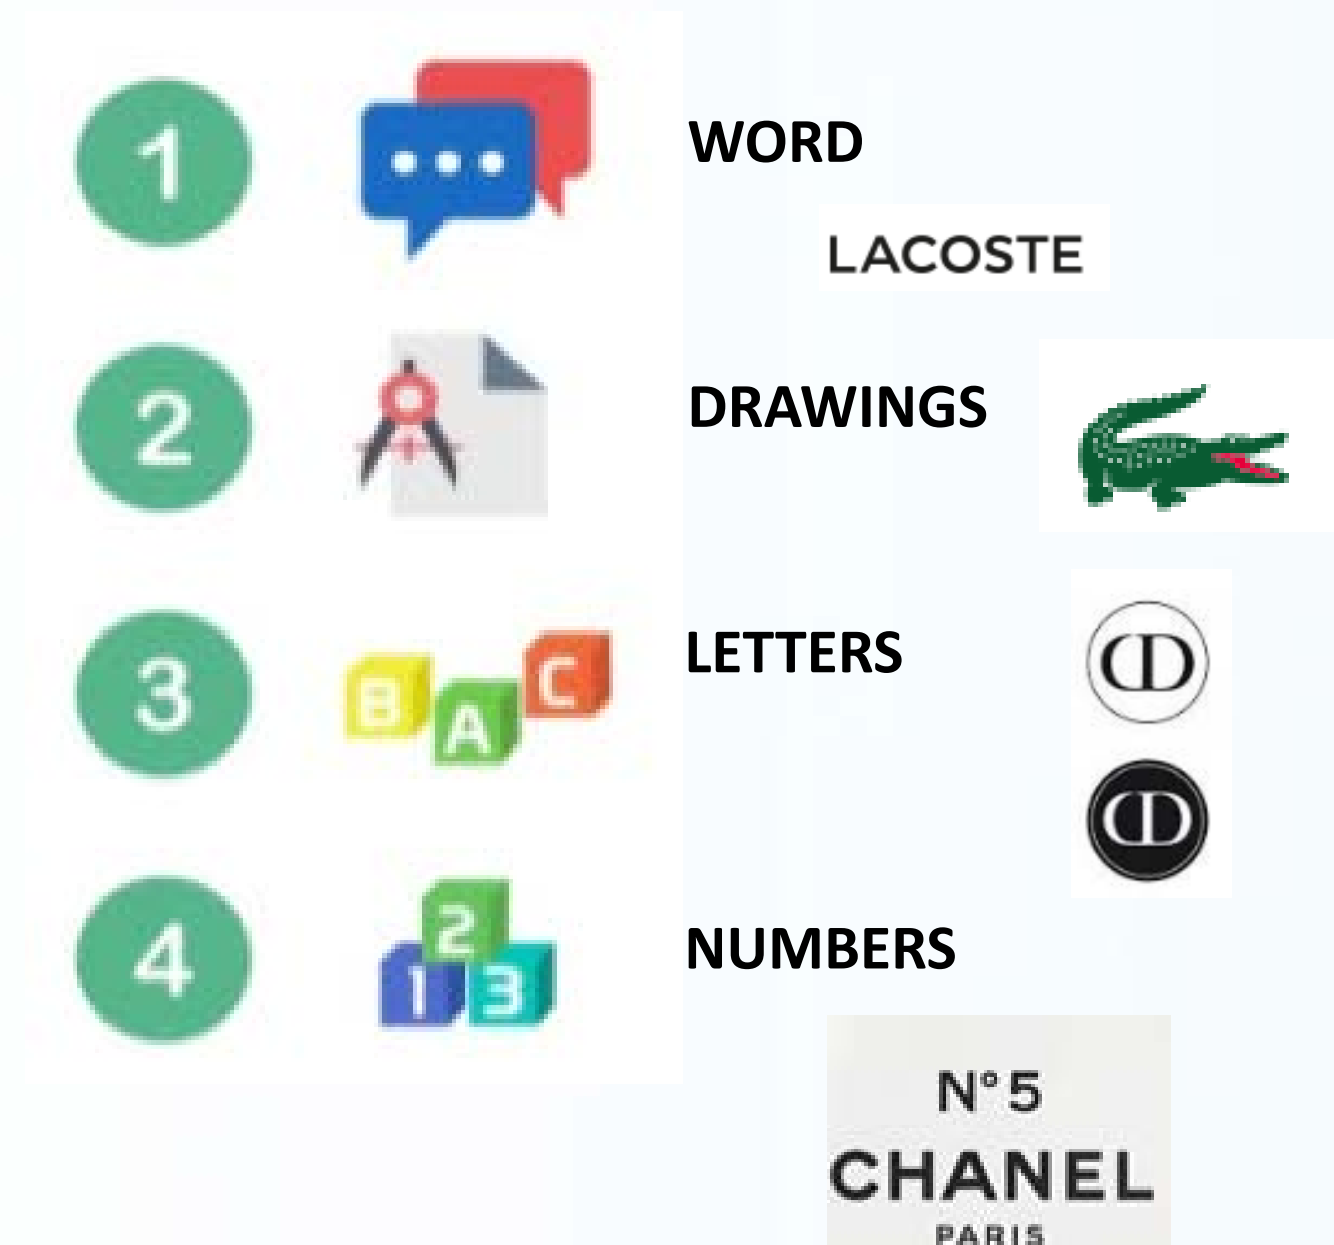

- ✓ **COPYRIGHT** = **Creation** → duration 70 years after the author's death → securing creation date
- ✓ **DESIGN** →
  - Registered → **25 years**
  - Not registered → **3 years**
- ✓ **TRADEMARK** →
  - Registered = **10 years + renewal**
  - Not registered
- ✓ **PATENTS** = **20 years**
- ✓ **KNOW-HOW** and **TRADE SECRETS:** **NO REGISTRATION**
- ✓ **UNFAIR COMPETITION** → complementary tool with respect to IP protection

# Protecting a creation through a trademark

## Different kinds of trademarks

- Verbal / Figurative / 3D trademark / Colour and positioning trademark / Simple and complex trademark

# Different recognized levels of protection

- ✓ Example - protecting Karl Lagerfeld figurative trademark – Court of Venice 5/10/2016 → recognized infringement and seizure of infringing goods and accountancy books

Fendi model

Infringement

# Different recognized levels of protection

## - Shape trademarks -

- ✓ Example - the “**Classic Bag**” **Balenciaga** = recognized trademark protection – Court of Venice 15/3/2013 – well known trademark for the formal, fancy characteristics

City Model, N. T020050001307  
Italian trademark (shape trademark)

- ✓ Example - the **Ferragamo hook** = well-known 3D trademark - recognized protection by the Milan Court 3/5/2016 – Ferragamo ./.. DC Brands

# NOTION AND FUNCTION OF A TRADEMARK

- ✓ **Distinctiveness** → identifying the source of origin
- ✓ **Weak and strong distinctive character** in relation to the degree of **originality** of the brand, with respect to **goods / services** covered (more extended protection for strong trademarks)

MAX&Co.

(ex. Strong trademark)

(ex. Weak trademark - descriptive)

# New European Certification Trademark (EUIPO Guidelines)

## Art. 74 – EU Regulation 2015/2424

- ✓ **Protection of the guaranty function of the brand** in relation to **materials / manufacturing process / quality**
- ex.: Italian collective trademark n. MI1983C02194
- Ex.: European figurative trademark n. 1233250

Oeko-Tex

# Fashion and patronymic brands (name of a designer signing his creations)

- ✓ The **Fiorucci saga** → **Italian Supreme Court ruling of 24/5/2017 n. 12995** –use of a **surname coinciding with a trademark contrary to honest practices** - link with the creators' trademark – EU Court of Justice 5/7/2011 C 263/09 –

*Love Therapy by  
Fiorucci*

# REFORM TRADEMARK LAW – EU REGULATION 1001/2017

- ✓ Opened possibility for the registration of **non-traditional** trademarks (colour, positioning, or shape trademarks)
- ✓ Ex.: **Adidas** shoes and stripes decorations

- ✓ Ex.: **Levis** pocket and red tag

***Pure  
positioning  
trademarks***

# COLOUR AND POSITIONING TRADEMARKS

- ✓ Court of Venice 1/09/2018 – recognized infringement of the **well-known EU trademark** n. 008845539, claiming the red colour, confirming **EU Court of Justice C 163/16 of 16/6/2018**

Christian Louboutin

counterfeited shoe

# The risk of confusion

- ✓ Art. 5 of EU Harmonisation Directive – **Puma ./.** **Sabel** – CJE (C-251/95)
- ✓ The pertinent factors
  - **Phonetic / visual / graphic / conceptual similarity** of the signs
  - And
  - **Identity / similarity of goods** / services characterized by the trademarks in comparison
  - **synthetic judgement** / dominant **distinctive elements**
- ✓ ex. **Penny Black / Penny Silvan** – **confusion and infringement assessed** – Court of Naples 29/4/2005
- ✓ ex. assessed **infringement of Chanel** international trademark – Court of Florence 26/1/2016

Chanel trademark

Infringing trademark

# Well known trademarks

- Court of Justice 14/9/97 – C 375/97 – Extended protection, **independently from the claimed classes of goods / services**
- **Knowledge – territory – investments**
- **Conditions for the status of the well-known trademark:** ex Court of Turin, 26/11/2007 Louis Vuitton ./ Il Mondo s.r.l.

- **Brand's communication power:** exploitation
- ex.: Bulgari ≠ **Brigitta Bulgari (porno star)** – Court of Milan 16/1/2009 –

# PARODY – Banned as a form of trademark infringement

- **Undue advantage taken from the reputation of a well-known trademark – no artistic expression justification ≠ but commercial use** of the sign
- Open letter to European Commission by **Chanel**
- Case **Diesel / Porco Diesel**– Court of Turin 9/3/2006
- Court of Milan 2/12/2014 – **Dom Pérignon** figurative trademark reproduced on t-shirts

# DESIGN

- Protection of the external appearance of a product, of the **whole or a part of it** resulting from the features of, in particular ...the lines, contours, colours, shape, texture and/or materials of the product itself and /or its ornamentation

Contour

Colour

Line

Shape

Texture

Ornamentation

Material

- The expression design (two-dimensional or three-dimensional) refers only to the ornamental or aesthetic aspect of a product and does **not** relate to his **technical or functional character**.

# Individual character assessment and design infringement judgement

- Assessment of **individual character** - EU Guidelines and case-law, also followed by Italian Courts – **H&M decision** ./ **Euipo** – T 525/13 – T 526/13 of 10/9/2015
- **Field of the referenced products** to which the design refers
- **The informed user of this kind of products** and his knowledge of the prior art
- **The degree of liberty of the creator** in the realization of the relevant design, in view of the field of interest and its crowding character
- The **comparison** of the interested **original design** and the **infringing product**, in view of the above conditions → **general impression**

# Example of infringement of registered design

**Court of Turin 25/06/2012 –Blufin/Organizzazione Grimaldi case**

**Synthetic evaluation and overall impression:** the models called "Flower and lines", "Marked trails" and "Daisies" by Blufin have **been imitated and copied** by Organizzazione Grimaldi in the following models:

*original*

v.

*original*

v.

**Infringement assessed**

# CASE STUDY ON UNREGISTERED DESIGN

**The Rose Flamingo:** Court of Bologna 16/7/2008 – date of creation of the design – *Enveloppe Soleau* filed in France – **infringement of the flamingo decoration** of Jean Paul Gaultier

↓  
The Rose Flamingo  
«classic»

↓  
Non registered design of  
JPG

↓  
Counterfeited

# CASE STUDY ON UNREGISTERED DESIGN

Another example of **broad protection** granted by Italian Courts to **non-registered design** – **Diesel ./. Zara case** – Milan Court 4/3/2016

Original model

Counterfeited

Imitation of the design, consisting in the different zip put on the sides of the jeans

**Pan European Injunction granted**

# Another more recent example of unregistered design

- Recognition of the validity of Louboutin's unregistered design – **infringement assessment** with a **cross-border effect** in all the countries of EU, following art. 90, III paragraph, EU Reg. 6/02 – **Court of Milan 31/10/2018** – Christian Louboutin ./ . Renzi

# Cumulated protection: copyright and design

- **Creative work** = original = **personal interpretation** of a pattern
- **Artistic value**: (i) **collective recognition** of the value of a work, ex. exhibition in a museum and (ii) communication of an emotion
- **Example**: the **Moon Boot case** – Tecnica ./ Anniel s.r.l. - Court of Milan, 12/7/2016
- **Individual character of the Moon Boots design and originality** → double protection granted: **design and copyright**

*Moon Boots  
Original*

*Anouk  
counterfeiting*

# COPYRIGHT AND UNFAIR COMPETITION

**Fendi case** – infringing textile – orchid textile – **recognized slavish copy and copyright infringement on orchid decoration**

*Fendi orchid textile*

*counterfeiting*

# DESIGNER / COMPANY: CONTRACTUAL RELATIONSHIP

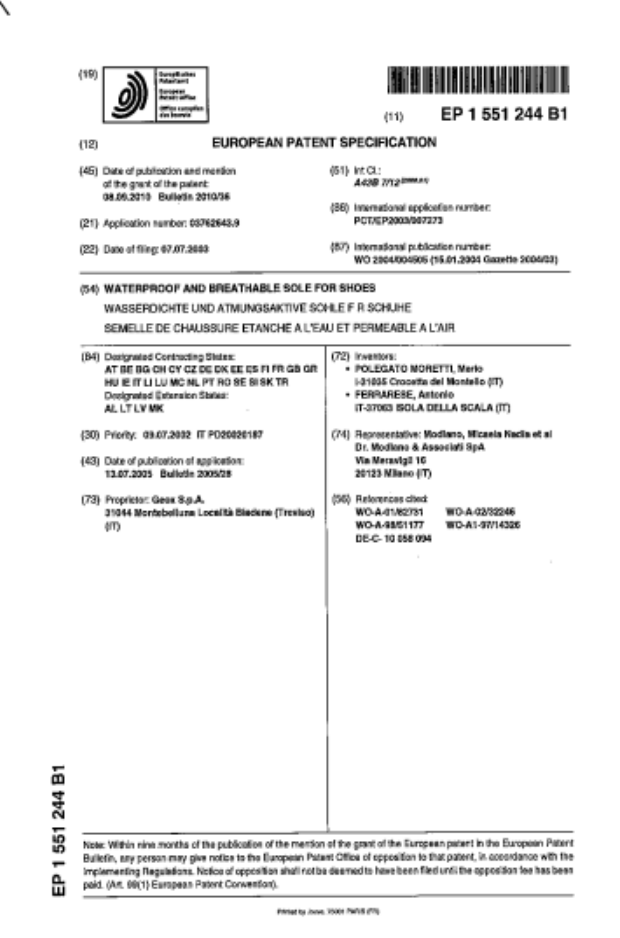

- ✓ **Patrimonial rights** → to the company
- ✓ **Moral rights** → to the designer
- ✓ **Designer's name quotation**
- ✓ **Royalties due** to the designer **3% - 7 %**
  
- ✓ **Exclusivity**
- ✓ **Non competing clause**
- ✓ **Integrity of the designer's work**

# Patent = novelty – inventive step – industrial application

## Product Patent

Ex.: Geox European patent – waterproof & breathable sole for shoes

## Proceedings patent

Ex.: Italian patent n. 1215001 – patent family claiming proceedings and equipments for decorating textiles and articles of clothing in an uniform way – **dry bleaching proceeding**

# CASE STUDY

The internal part of the sweater is not bleached. This means that the sweater has been subjected to a dry bleaching process. Only the external parts of the clothing are bleached. The decoloration within a water bath would have bleached uniformly both the internal and the external parts of the sweater

# CASE STUDY

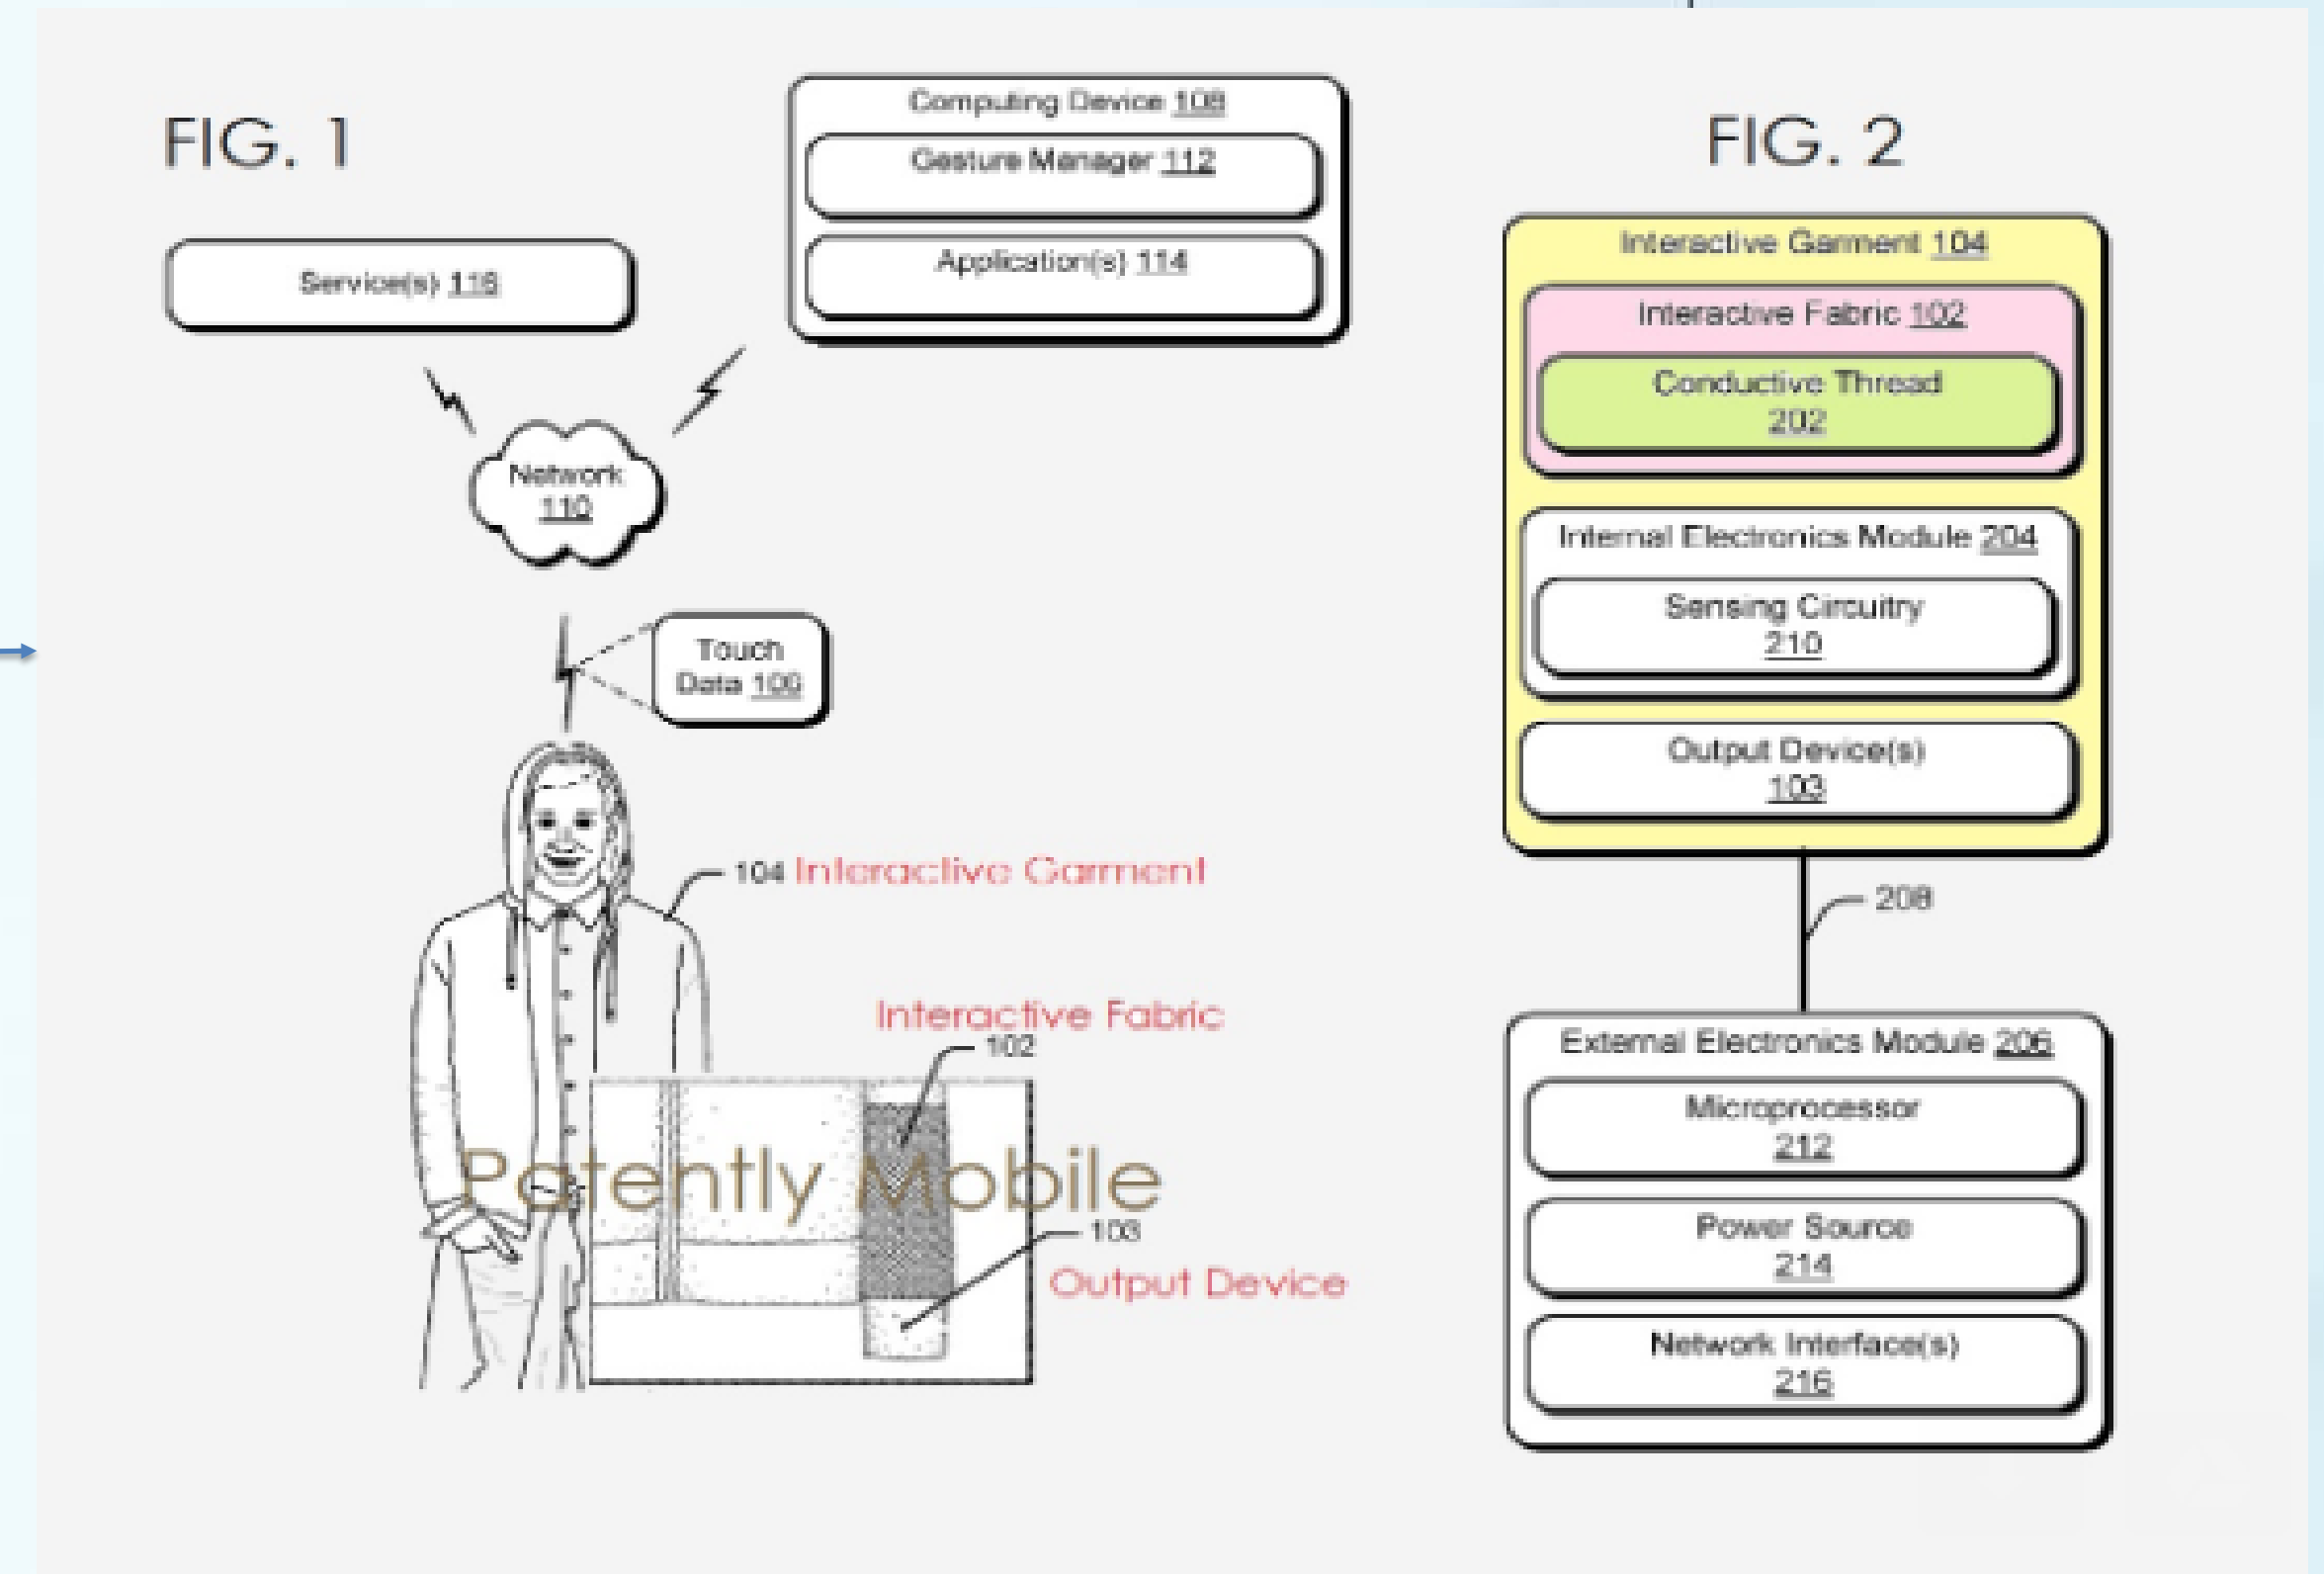

- ✓ Milan Court **14/1/2016 - Max Mara**, owner of an Italian patent, filed in 2010 (n. IT'348) so called “**Perfect Fit**” concerning a back pocket on a pair of jeans and a method for cutting and sewing it, sued a Germany company for its infringing model named “**Backup**”. Max Mara’s patent, **valid, inventive and infringed**

*The Perfect Fit  
application* →

← *The Patent*

# THE “INTELLIGENT TEXTILE”

- ✓ Mainly protected by Patents, consisting in electronic circuits and communicating systems the so called “**interactive materials for garments**”.
- ✓ For instance, Google has invented a **gesture control system for future smart interactive textile / garments**. To this end, Google filed US patent application n. 2016/0283101/A1 claiming: techniques using an interactive fabric which is configured to sense user interactions in the form of single, or multi-touch input (e.g. **Gestures**). The interactive fabric may be integrated into a **wearable interactive garment coupled via wired, or wireless connection, to a gesture manager**. This **device can also be applied on bags, or other accessories**.
- ✓ Another example of “**intelligent patented textile**” is given by the “**Polartec**” fabric protected under EU patent EP 1 665 945 A1 for **more modern and innovative Polartec Polar fleece**

# The protection of creative know-how – different kinds of know-how

- **Industrial know-how** –  
technical knowledge  
applicable to a  
**manufacturing process**

- **Commercial know-how** –  
knowledge and experiences  
connected to an **efficient  
management** of a firm

**Technological know-how**  
– secret info, attributing a  
competition advantage having  
an **economic value** –  
**examples:** design / prototype  
/ manufacturing process

**Promotional know-how** –  
clients lists / marketing  
information / business plans /  
price information

**Strategic know-  
how**

# Definition of “Trade Secrets” following EU Dir. 943/2016

- **Commercial secrets, technical and industrial info** under the control of the relevant owner
- **To be secret:** these info shall **not being** generally known to the people dealing with this kind of info and **not** being easily accessible. The info shall have **commercial and economic value, being secret** and reasonable steps shall be taken → to keep the information secret – need of **protective programs** in the undertaking
- **Example of “trade secrets” in the fashion industry:**
  - exploitation of flower’s petal for the realization of tissues and/or for the finishing of clothing articles and/or accessories
  - **Flower drying process** depending on crescent, or not moon, at a certain temperature, with the use of **fish gelatin**

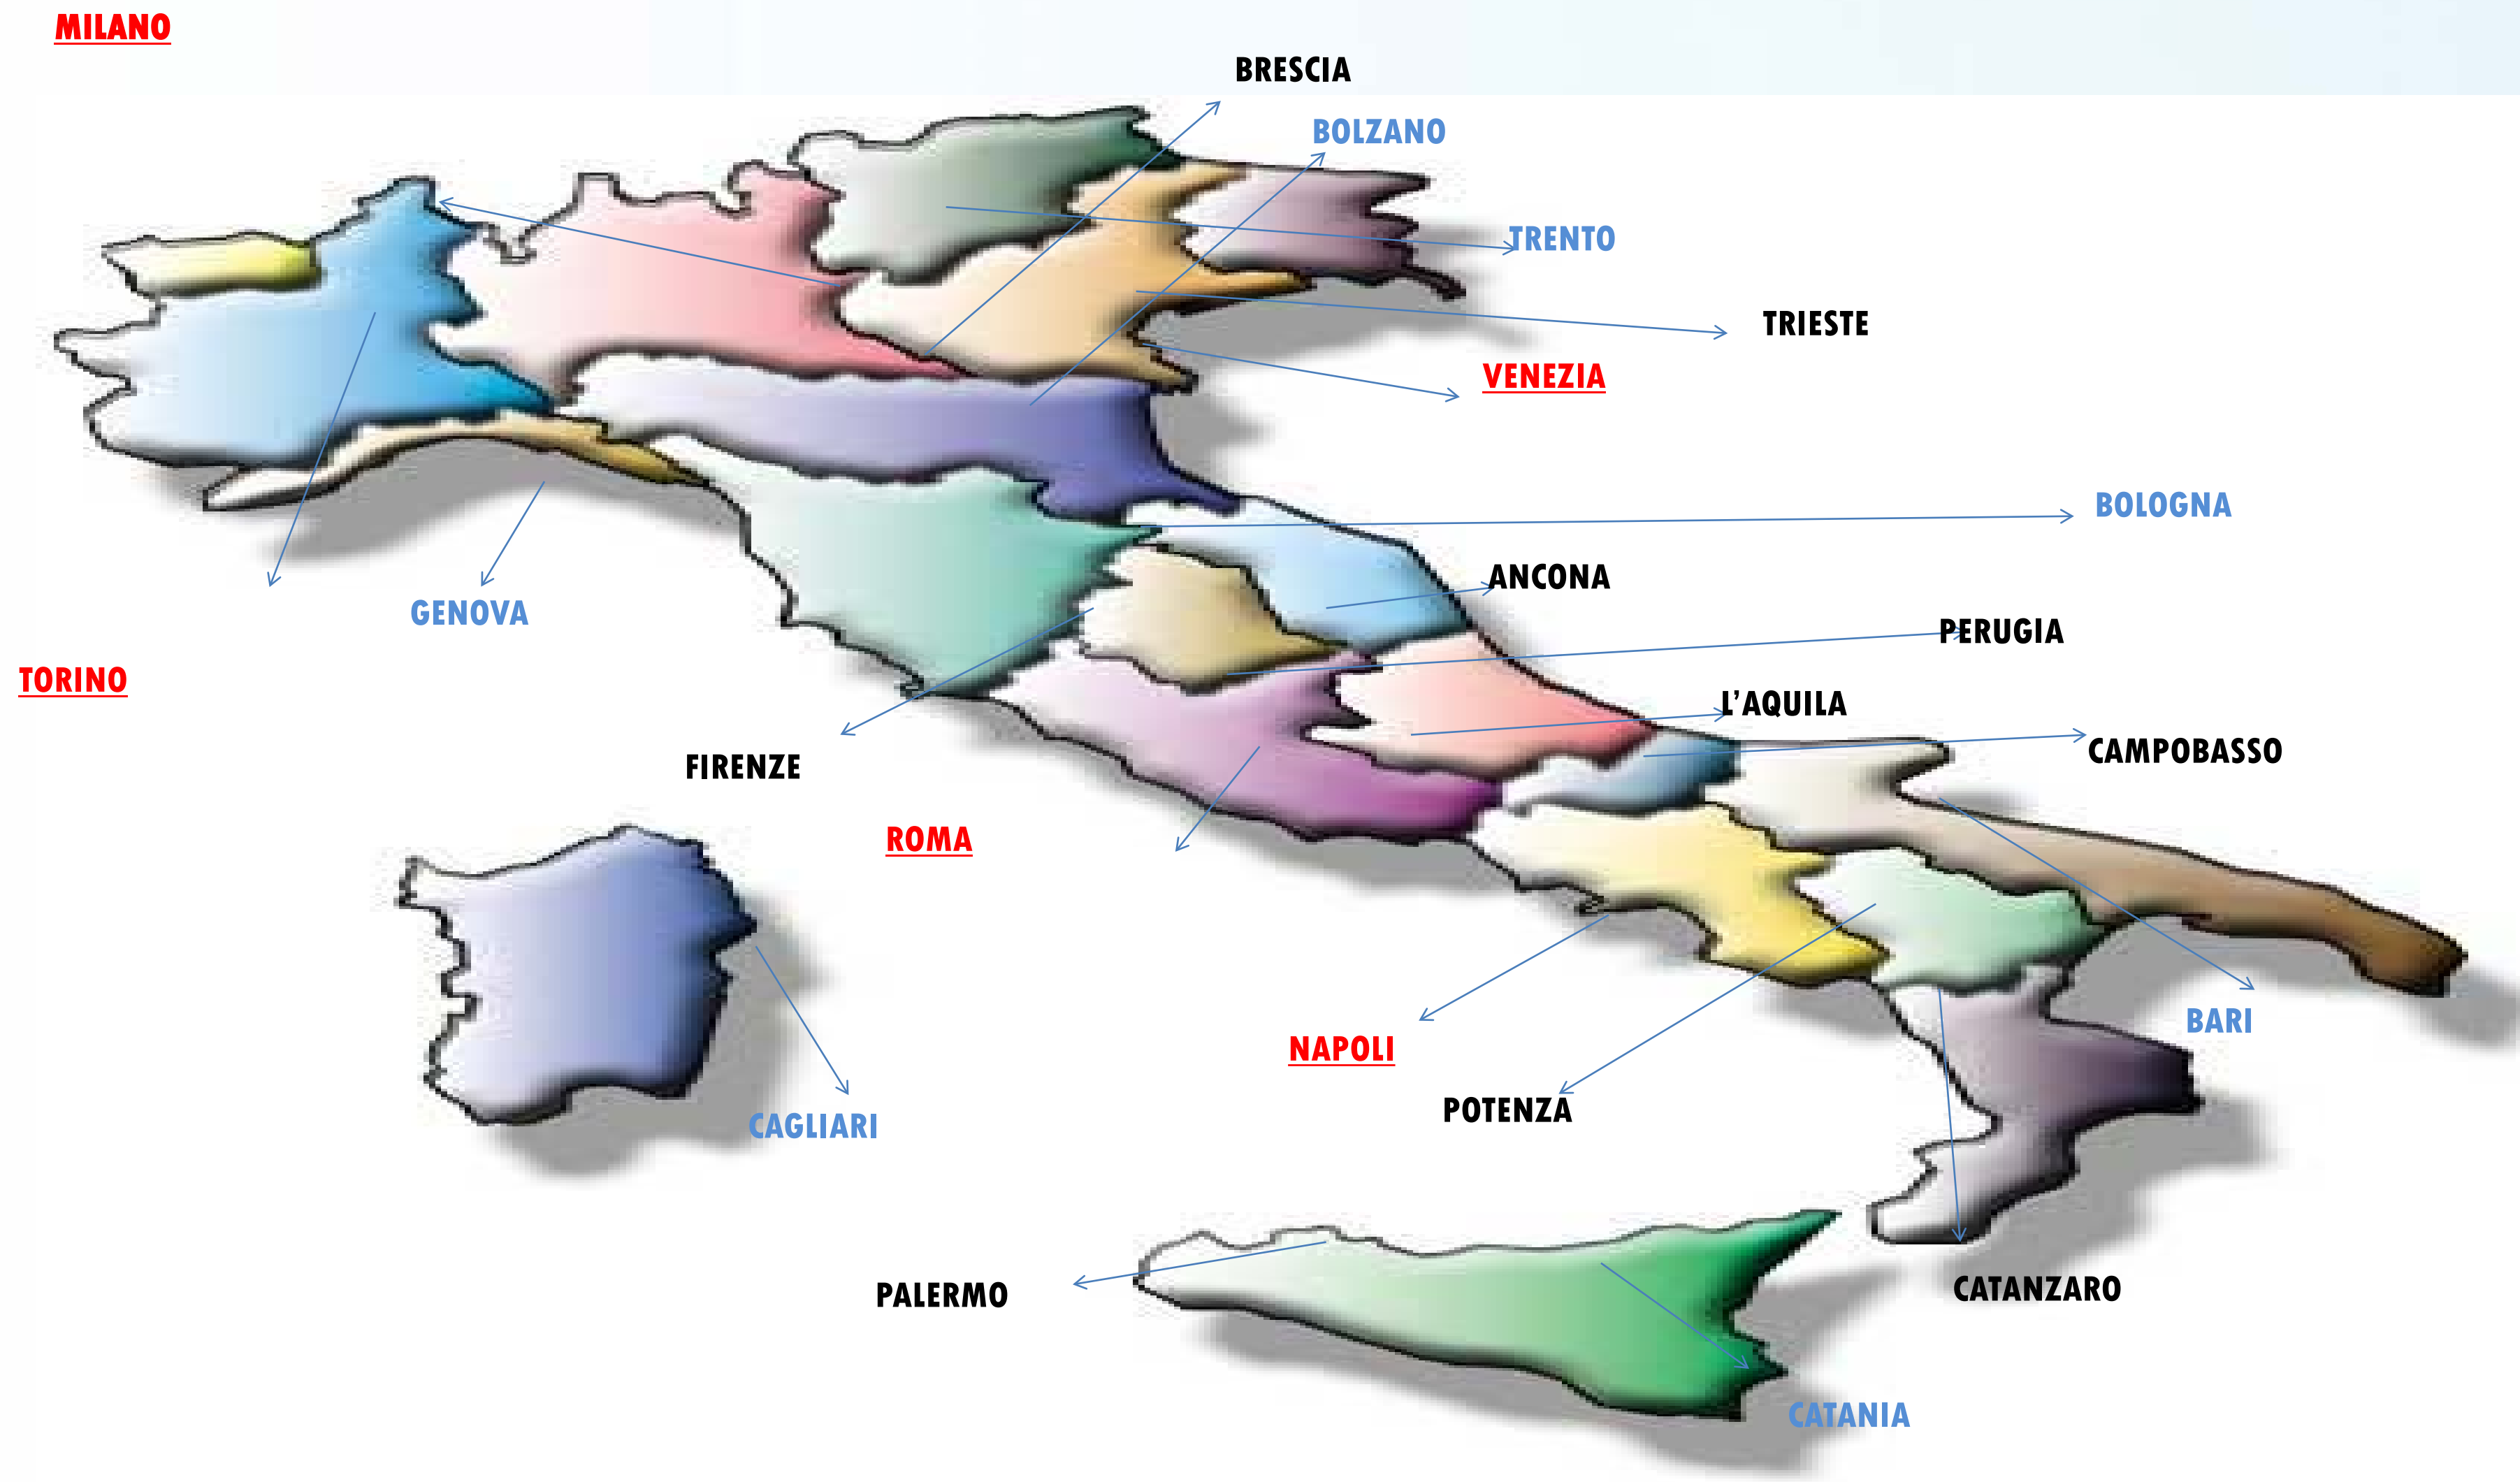

# Non-disclosure Agreements

- To be made also **between the company and the designer/ supplier**, for protecting **trade secrets** from any **misappropriating risk**
- **Important clauses:**
  - ↓
  - ✓ Precise indication of the **use purpose of the confidential information**
  - ✓ Identification **of confidential information**
  - ✓ **Duration of the agreement**
  - ✓ **Non competing clause**
  - ✓ **Penalties** in case of **non compliance**
  - ✓ Applicable **law and competent Court**

# Fighting against infringement and parasitism

In Italy - : **22** Specialized Courts – **11** for foreign companies litigating in Italy

**Competence:** the defendant's **place of business** or the place **where the infringement is committed**

# Urgent proceedings

For securing evidence of the tort -  
different level of effectiveness

➤ **DESCRIPTION**  
(only samples to be  
taken)

➤ **SEIZURE** (seizure  
all the products and  
also of the  
accountancy books)

➤ **PRELIMINARY  
INJUNCTION** (to  
stop the unlawful  
activity and set  
penalties for any  
new breach of the  
order)

## REQUIREMENTS:

- *Prima facie* existence of a good title (= *fumus boni iuris*)
- **Risk of an irreparable prejudice** (= *periculum in mora*) – **Deadline for acting → 1 – 3 months** from the tort's assessment / discovery
- **Action on the merits – damages award** – Publication of the decision

# AI IN CUSTOMER-BRAND RELATIONSHIPS

---

**GOOGLE FRANCE**

**ALICIA BIRR**

# Is artificial intelligence opening a new space time for fashion ?

**Alicia Birr**  
**Head of strategic planning**  
Google France

**Artificial Intelligence** is the broader concept of machines being able to carry out tasks in a way that we would consider “smart”.

And,

**Machine Learning** is a current application of AI based around the idea that we should really just be able to give machines access to data and let them learn for themselves.

A **Neural Network** is a computer system designed to work by classifying information in the same way a human brain does. It can be taught to recognize, for example, images, and classify them according to elements they contain.

# CHANGE OF PARADIGM

**HENRI MURA**

The background of the slide features three 3D CGI models. On the left, a female model with long blonde hair wears a light blue top with a red beaded necklace and a blue skirt. In the center, a male model with reddish skin and a blue jacket has a green and yellow alien head on his shoulder. On the right, a female model with green skin and purple hair wears a black top and a long, colorful, iridescent skirt. The scene is set against a soft, cloudy sky.

# CHANGE OF PARADIGM

*A new dimension in fashion digital commerce*

**X-Reality Digital Commerce Apps leveraging  
the interactive & immersive potential of 3D CGI content**

**Henri Mura / Founder @ Change of Paradigm / [henri@changeofparadigm.com](mailto:henri@changeofparadigm.com)**

Need for retailers and digital commerce players in the fashion & accessories, sports apparels, pets clothing & accessories categories to :

**attract, engage and retain millennials and generation Z customers to increase conversion rates and ROI**

Enhance entertainment value of «digital shopping» through personalized immersive and interactive user experience

X-Reality digital commerce apps solutions proposed by change of Paradigm:

- Augmented Reality apps (stand-alone and plug-ins)

- Virtual Reality apps (for the retail environment)

- Holographic Reality apps (Red Hrydrogen phone)

- Mixed Reality apps (Microsoft Hololens and Magic Leap)

- Presence on Social Virtual Reality platforms (Sansar...)

INNOVATIVE ANTI COUNTERFEIT SOLUTIONS

# CYPHEME OFFERS TAILORED SOLUTIONS

GENUINE

FAKE

# THE BEST LEVEL OF SECURITY

## AUTHENTICATION USING A SIMPLE SMARTPHONE CAMERA

Our solution does not require any complementary tool and offers a completely safe authentication.

## 4 LEVELS OF SECURITY

- **Uniquechemical imprint**: patented technology of varnish printing
- **Artificialintelligence**: a cutting-edge technology
- **Secure online cloud**: ultra-secure access to database
- **Hyperphotometry** patented technology using light level differentiation

Very small footprint:

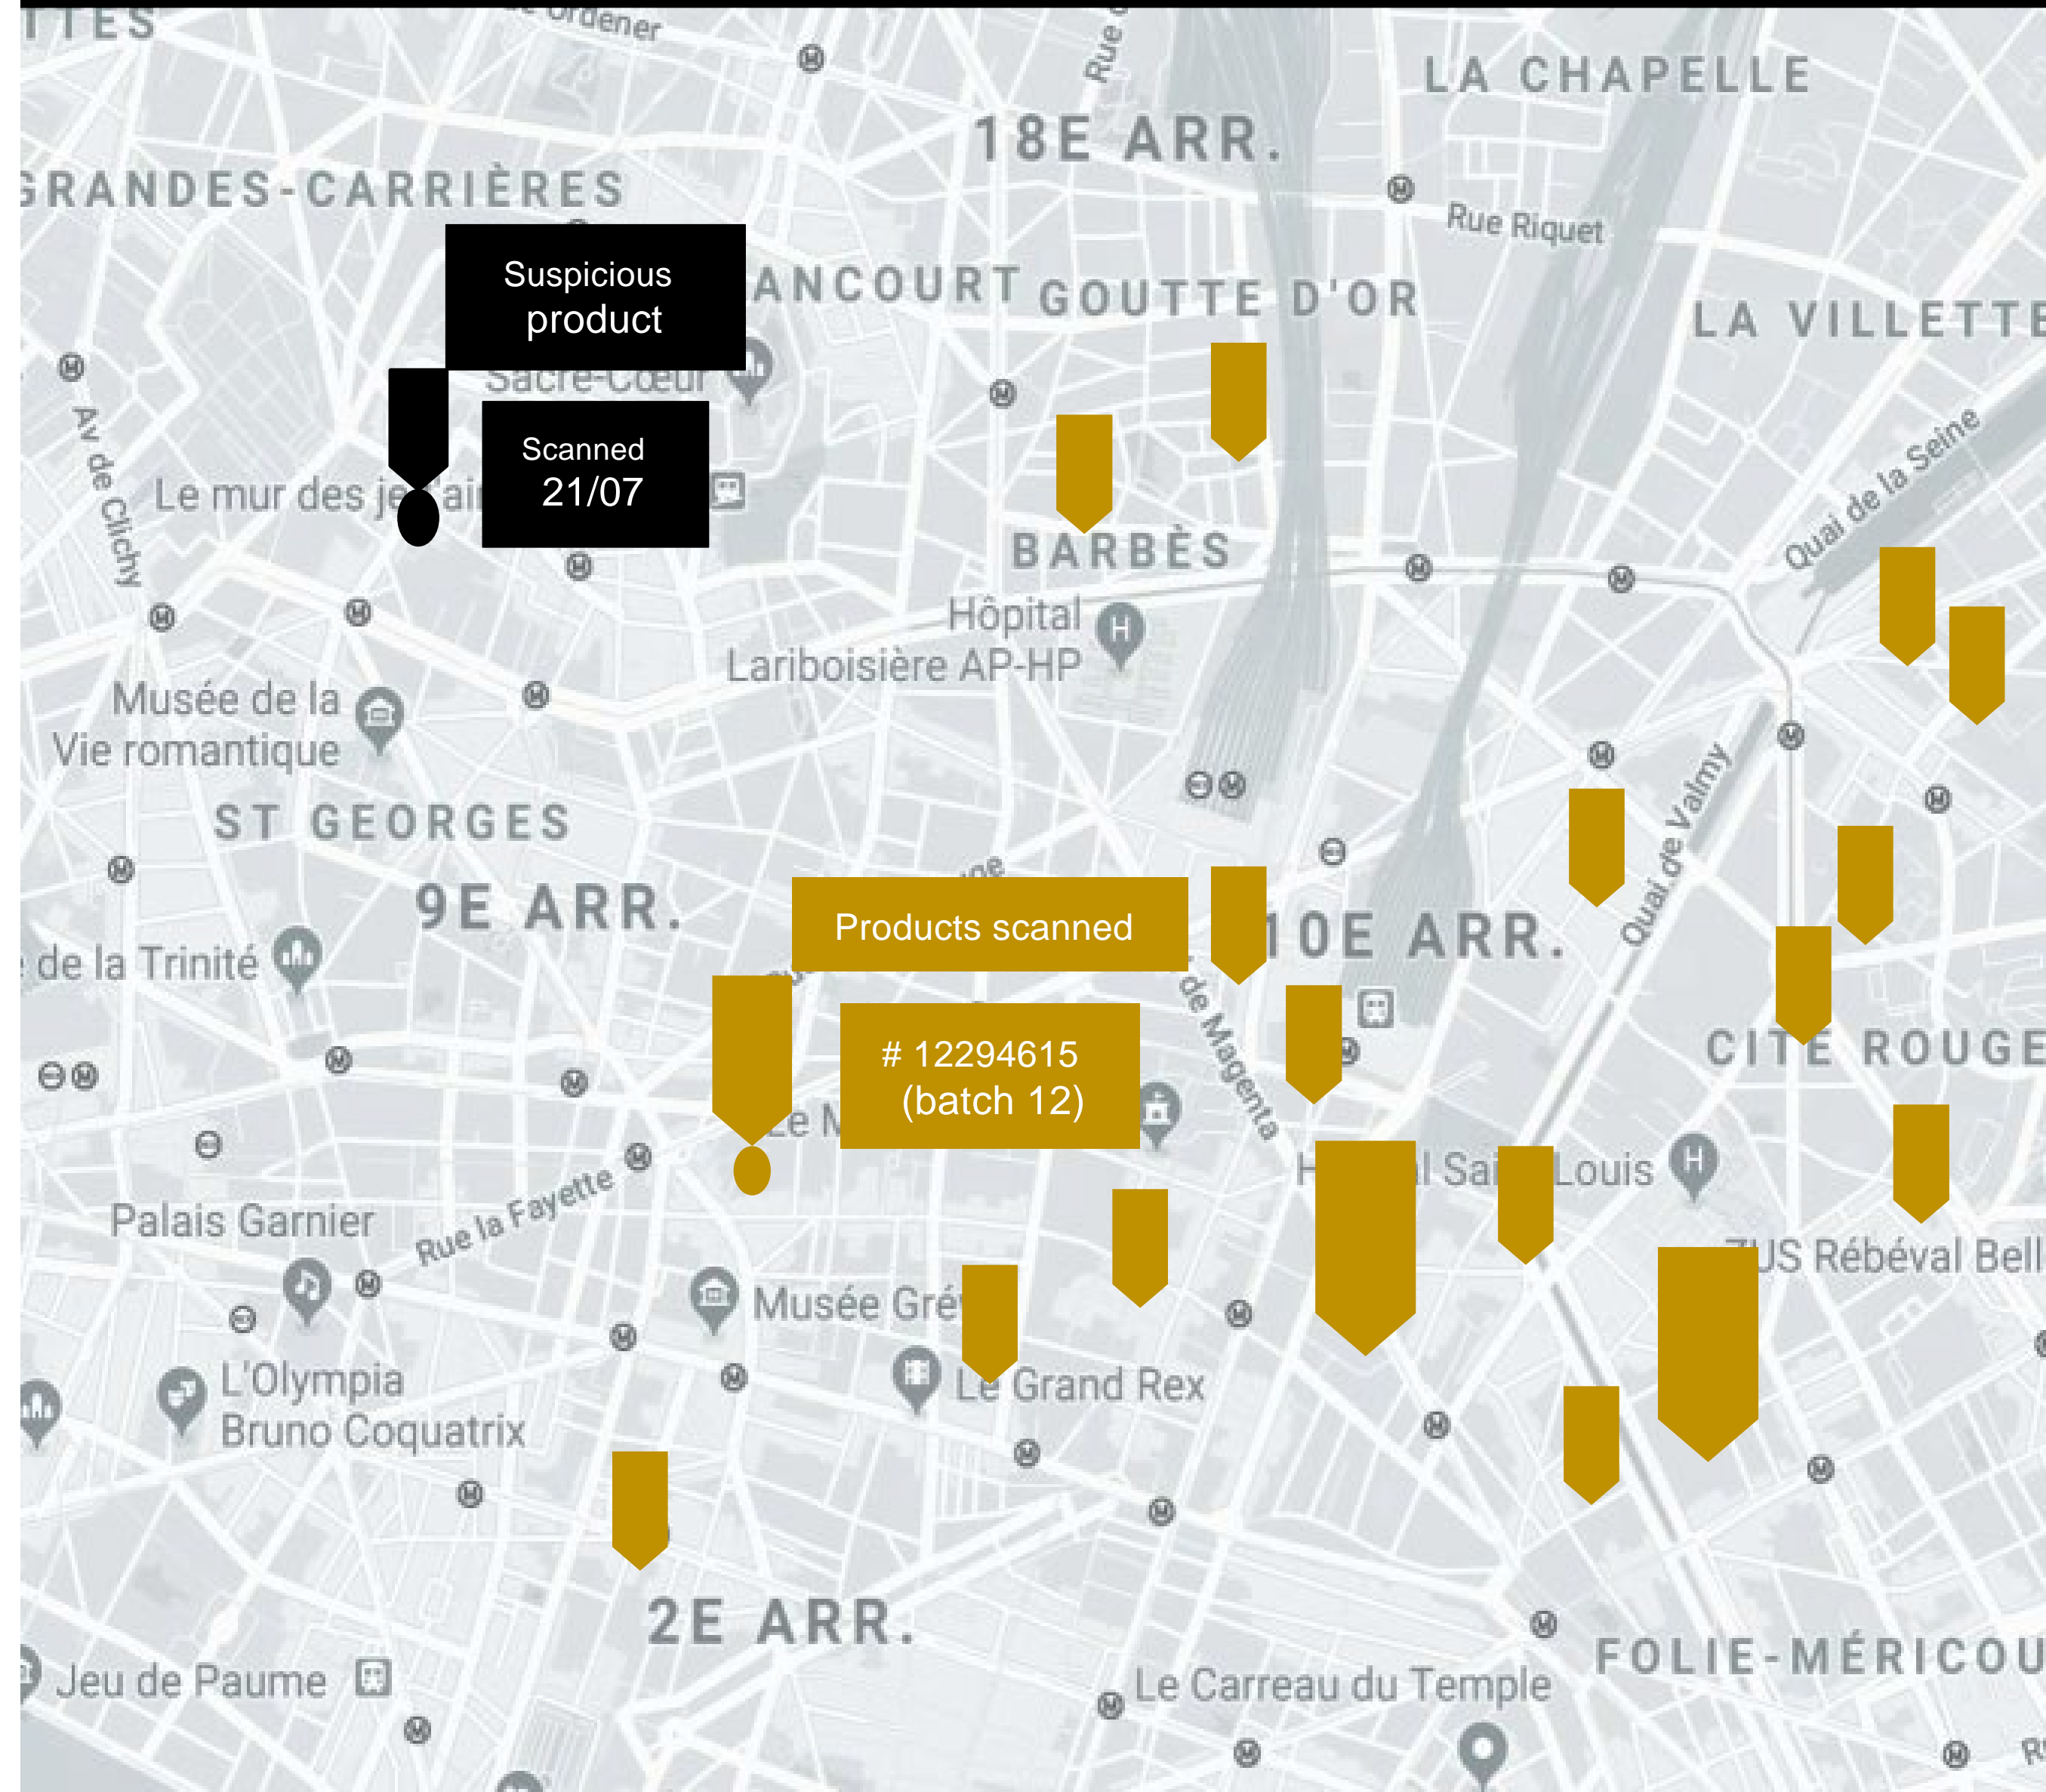

12mm

# TRACEABILITY

CYPHEME PROVIDES PRECISE GEOLOCATION REPORTS.

## 1- GEO-LOCALIZATION

- Know in real time where your products are scanned
- Know in real time where fake products are scanned

## 2- TRACING

**Some of your products ends up where they shouldn't?**  
**For example, sold on e-markets outside of your official distribution network?**

We can provide you with batches of numbered tags. Provide each of your distributors with a different batch. Whenever one of your product is found outside of its regular circuit, you will know who it came from.

## 3- TRACK AND TRACE

We don't provide logistics and ERP consulting, but we are compatible with third party supply chain T&T suppliers

CEO – BlockchainyourIP

 BlockchainyourIP

# HOW DOES BLOCKCHAIN TECHNOLOGY WORK?

## Document fingerprint

Calculate the unique digital fingerprint of your document with your internet browser

## Simple Form

Fill out a simple form to identify your creation or innovation

## Anchoring the document

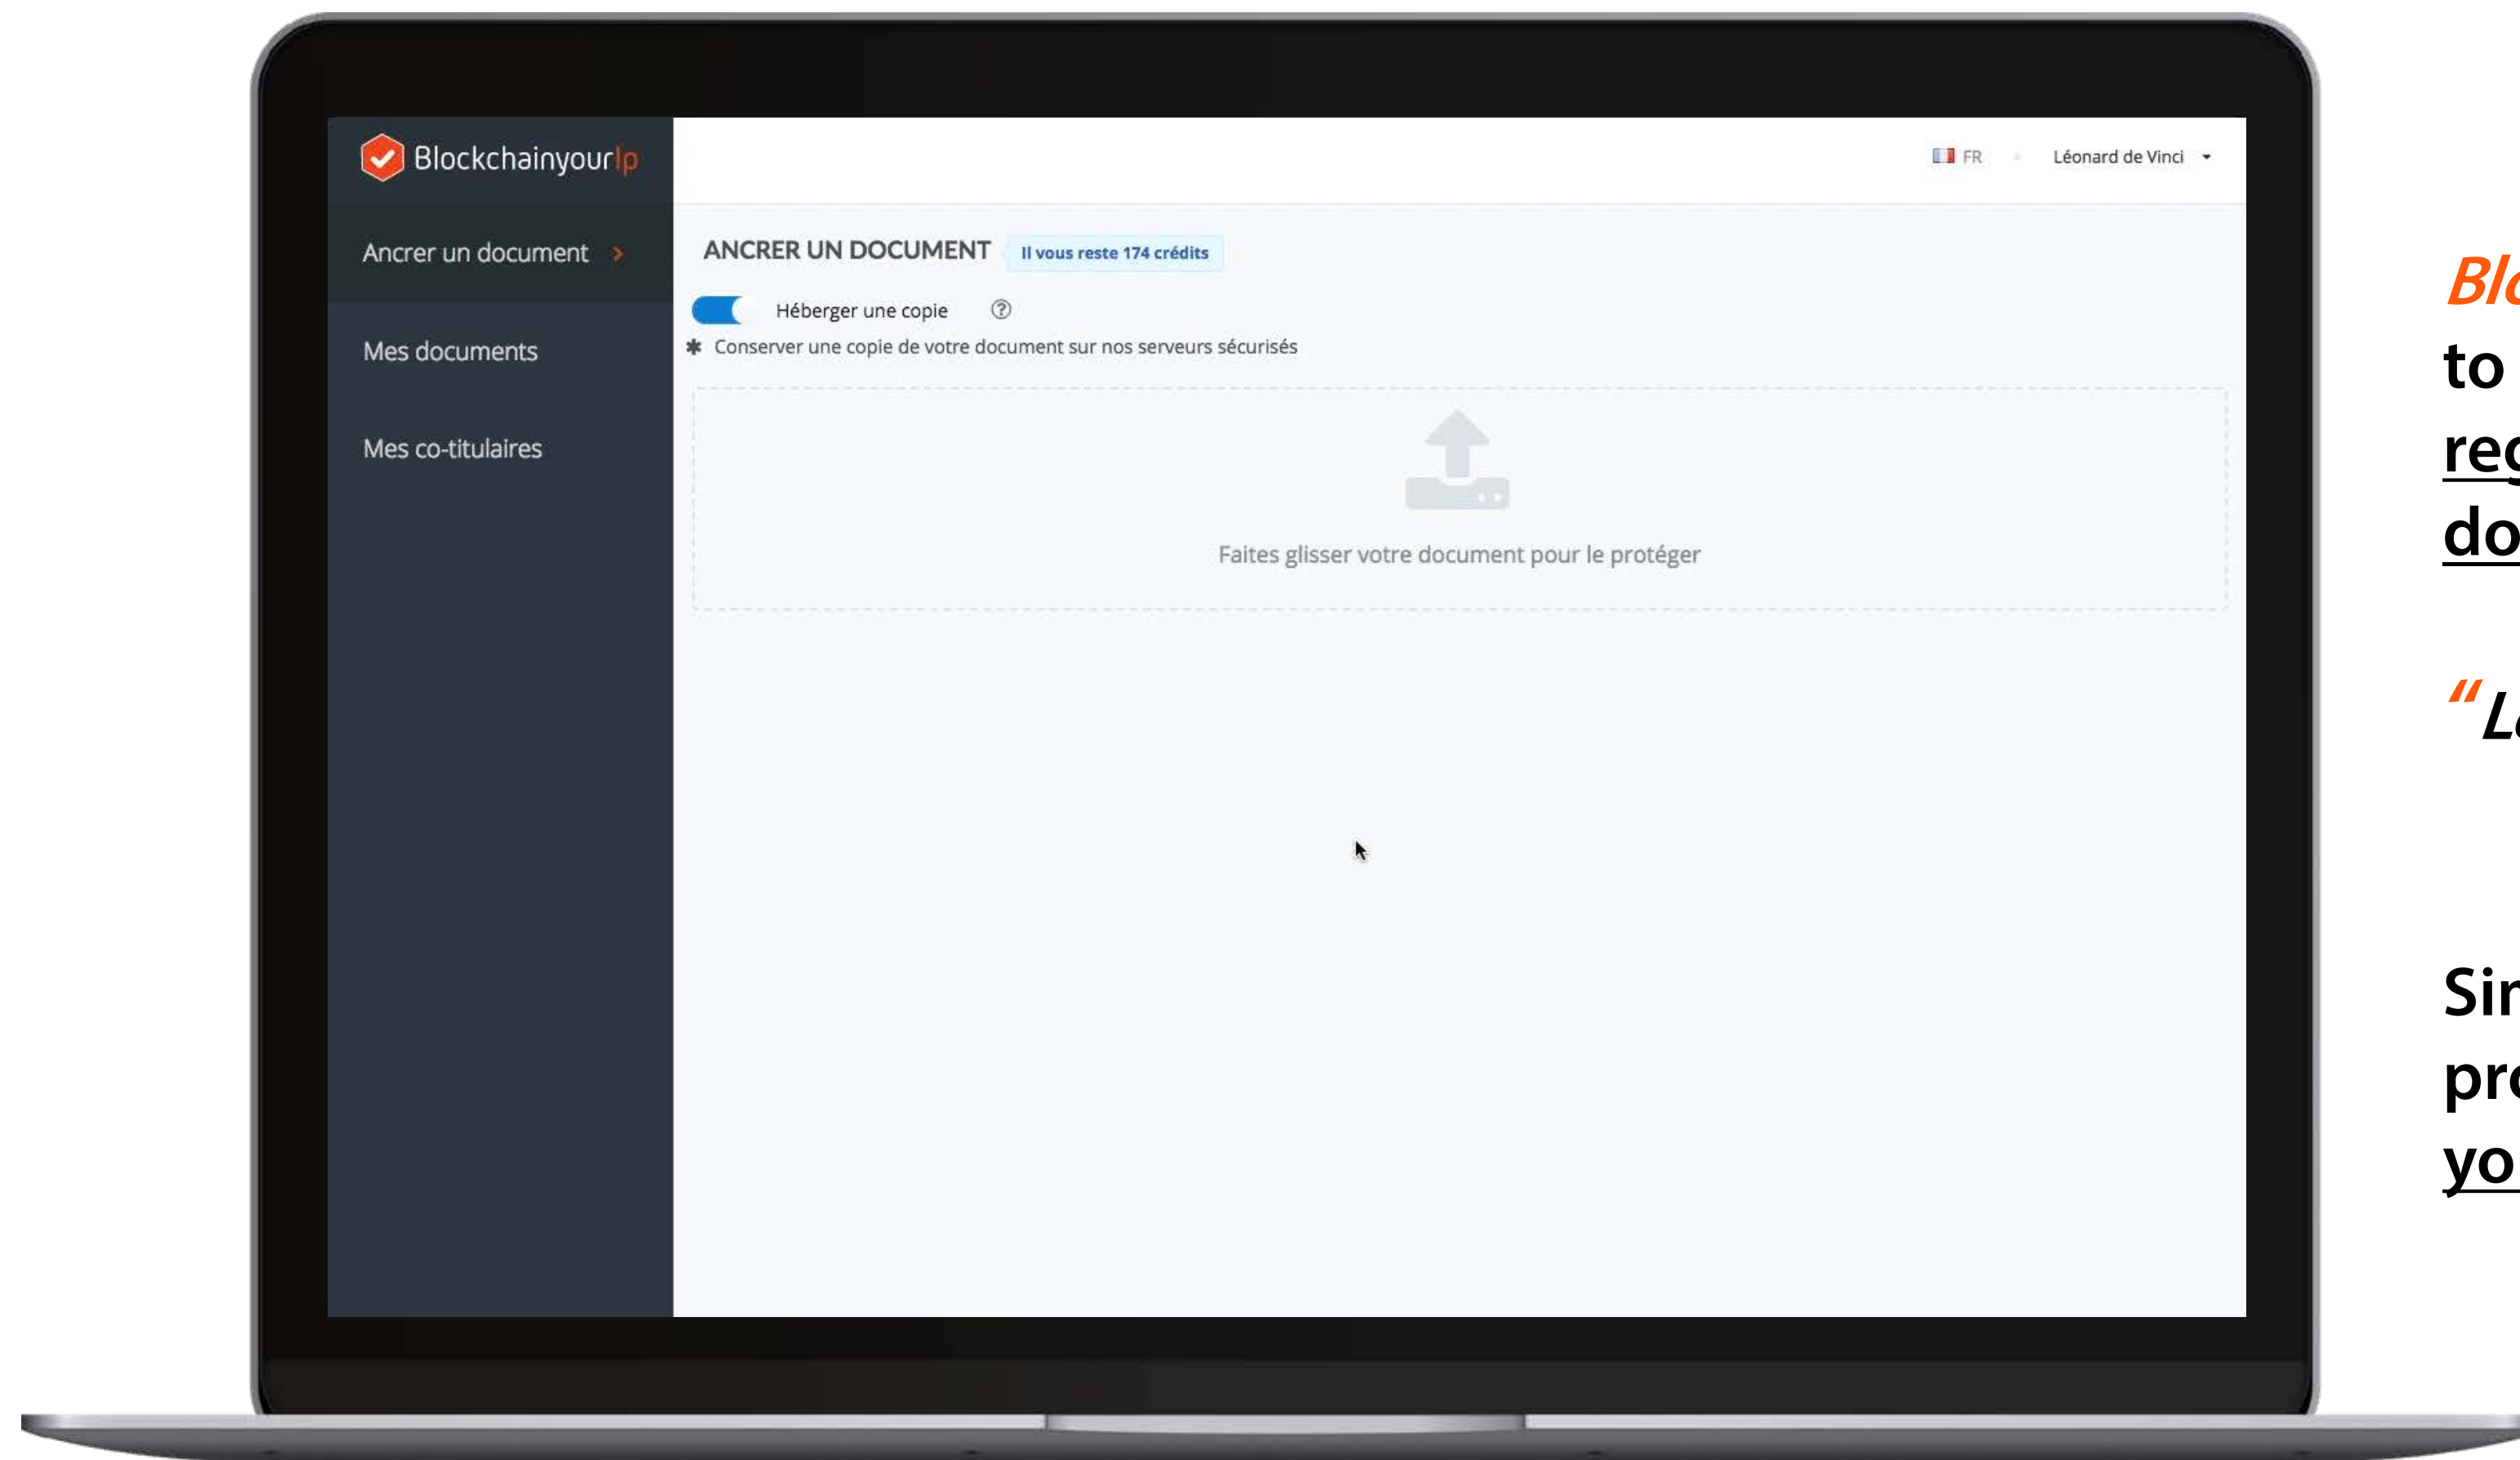

The digital fingerprint of your document is inserted in a Bitcoin Blockchain transaction

## Anchoring certificate

Download the certificate proving the protection of your creation or innovation

# EASILY PROTECT YOUR DOCUMENTS

***BlockchainyourIP*** is the easiest and fastest way to protect your creations or innovations, regardless of the format or size of your document

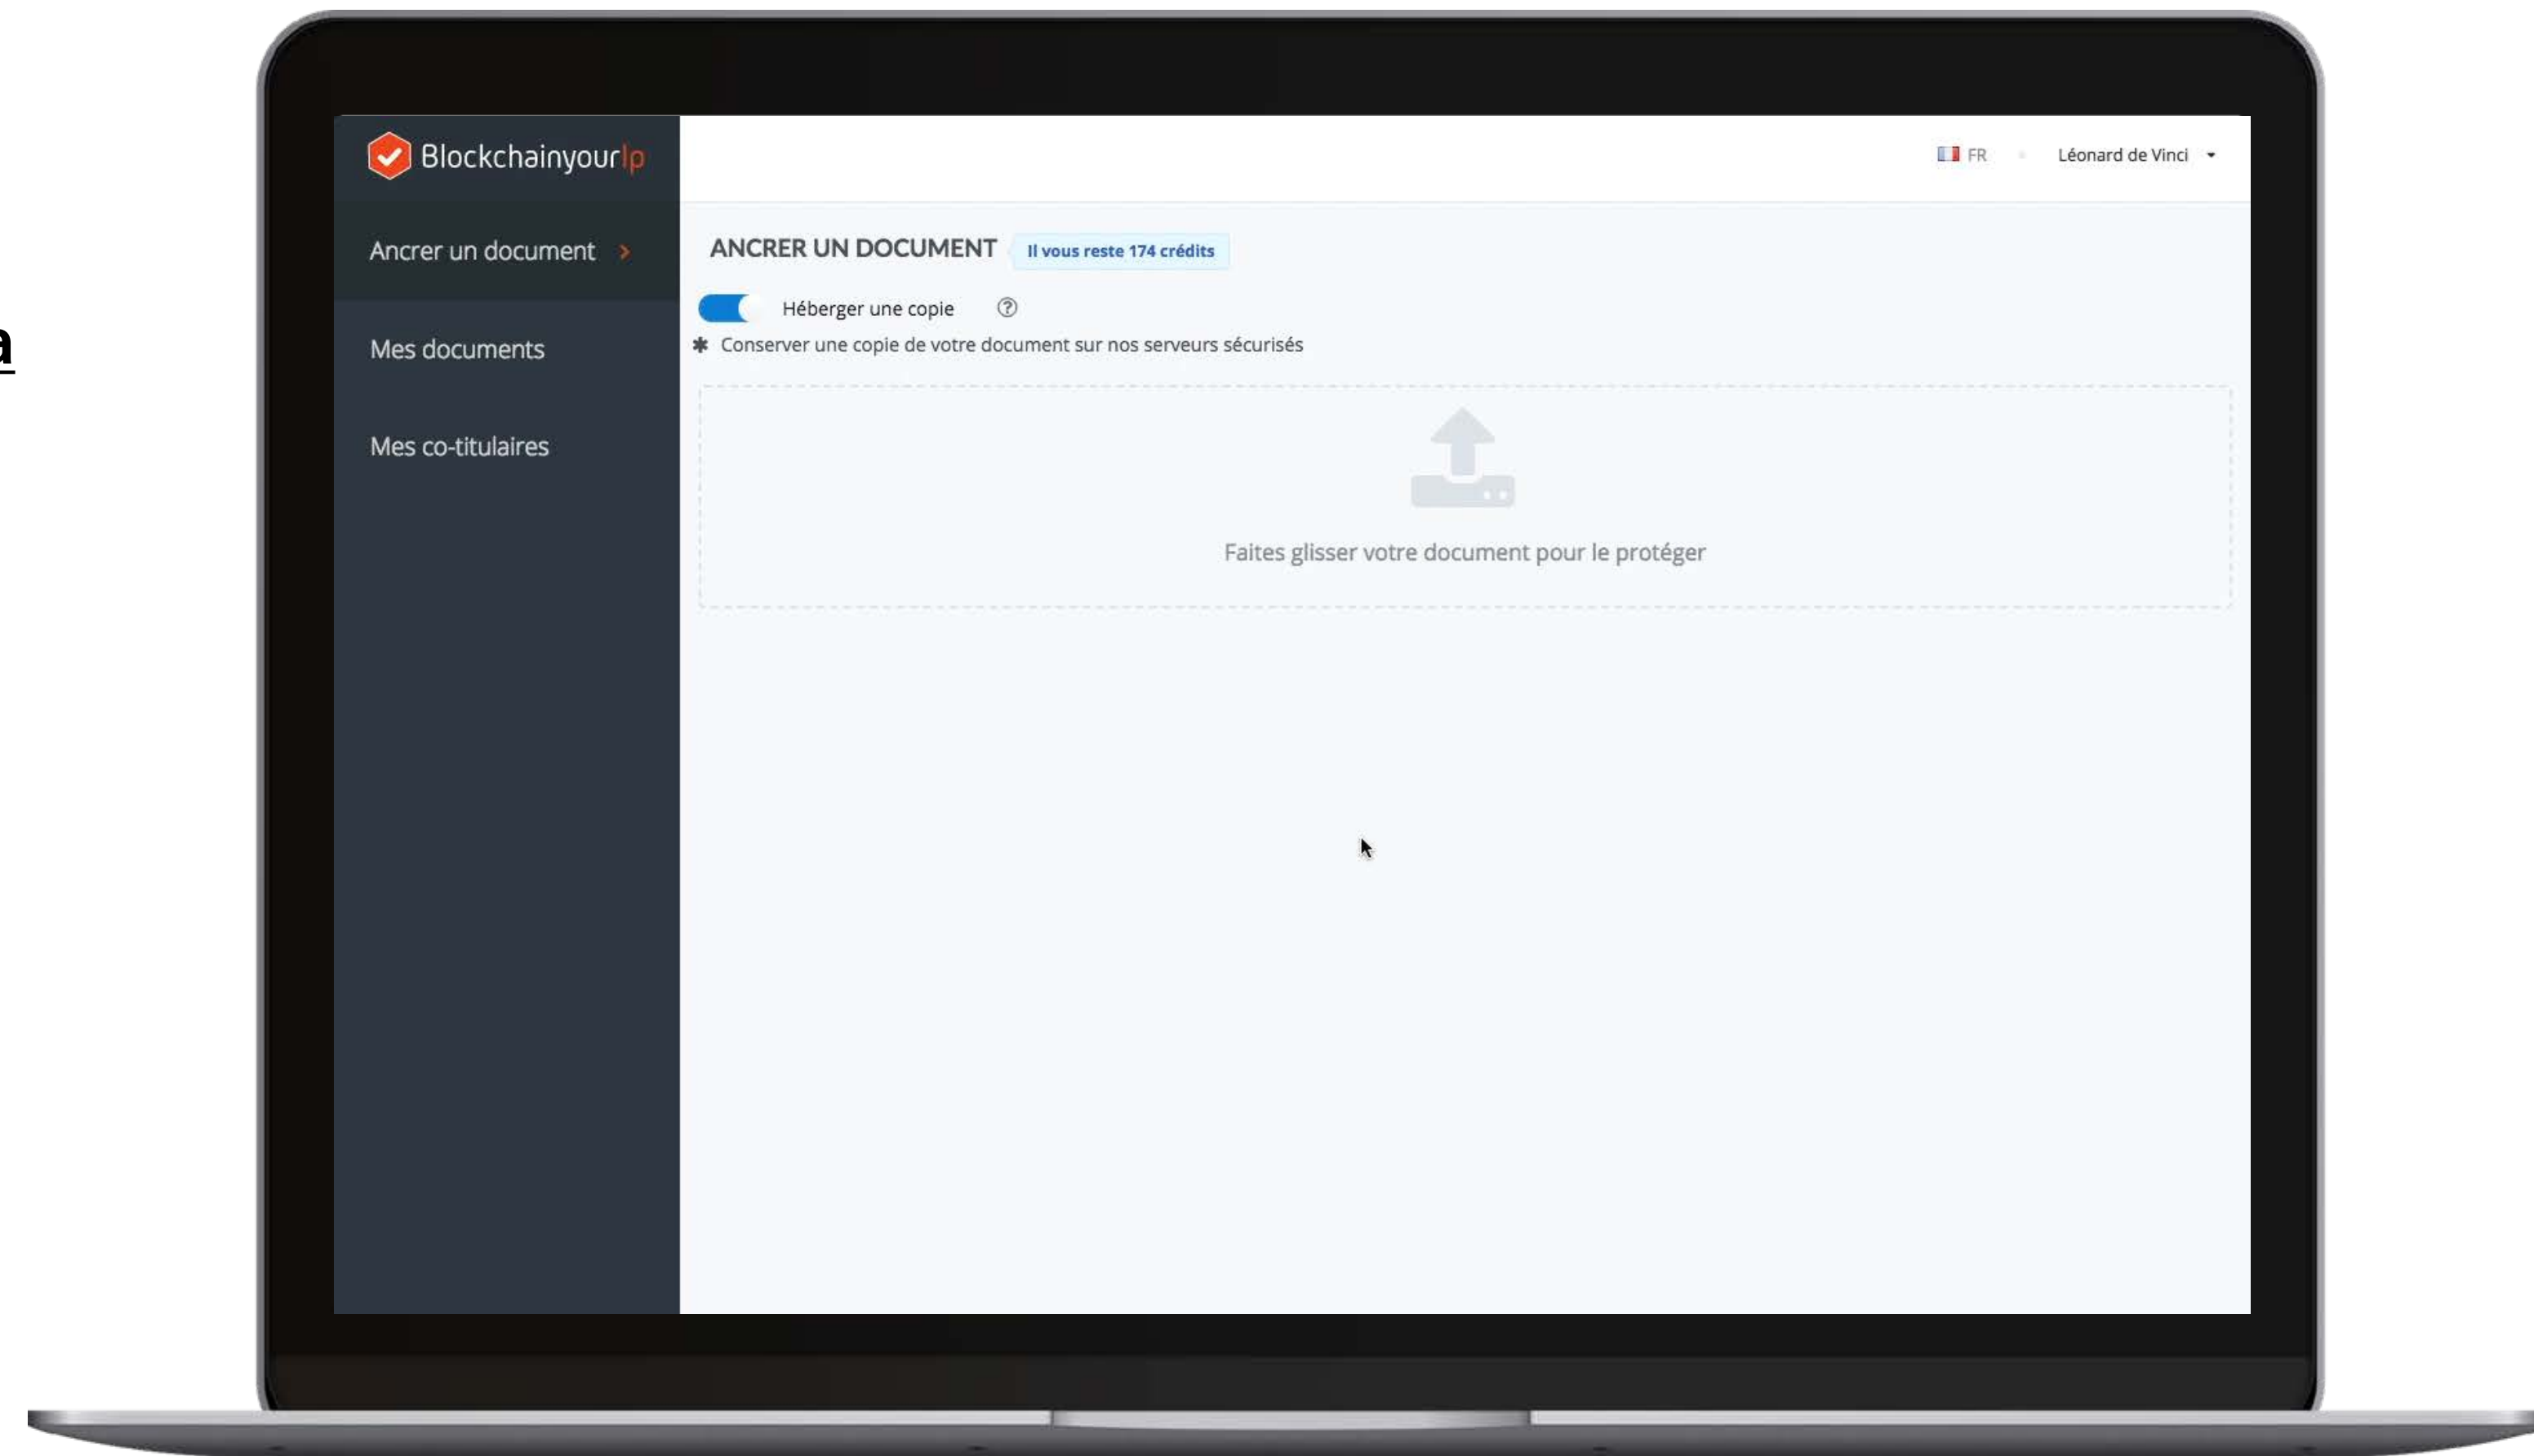

***“Less than two minutes are needed to finalize your protection”***

Simply drag your document into the window provided and choose whether or not to store your document on our secure platform.

# MANAGE ALL YOUR EVIDENCE ON YOUR DEDICATED SPACE

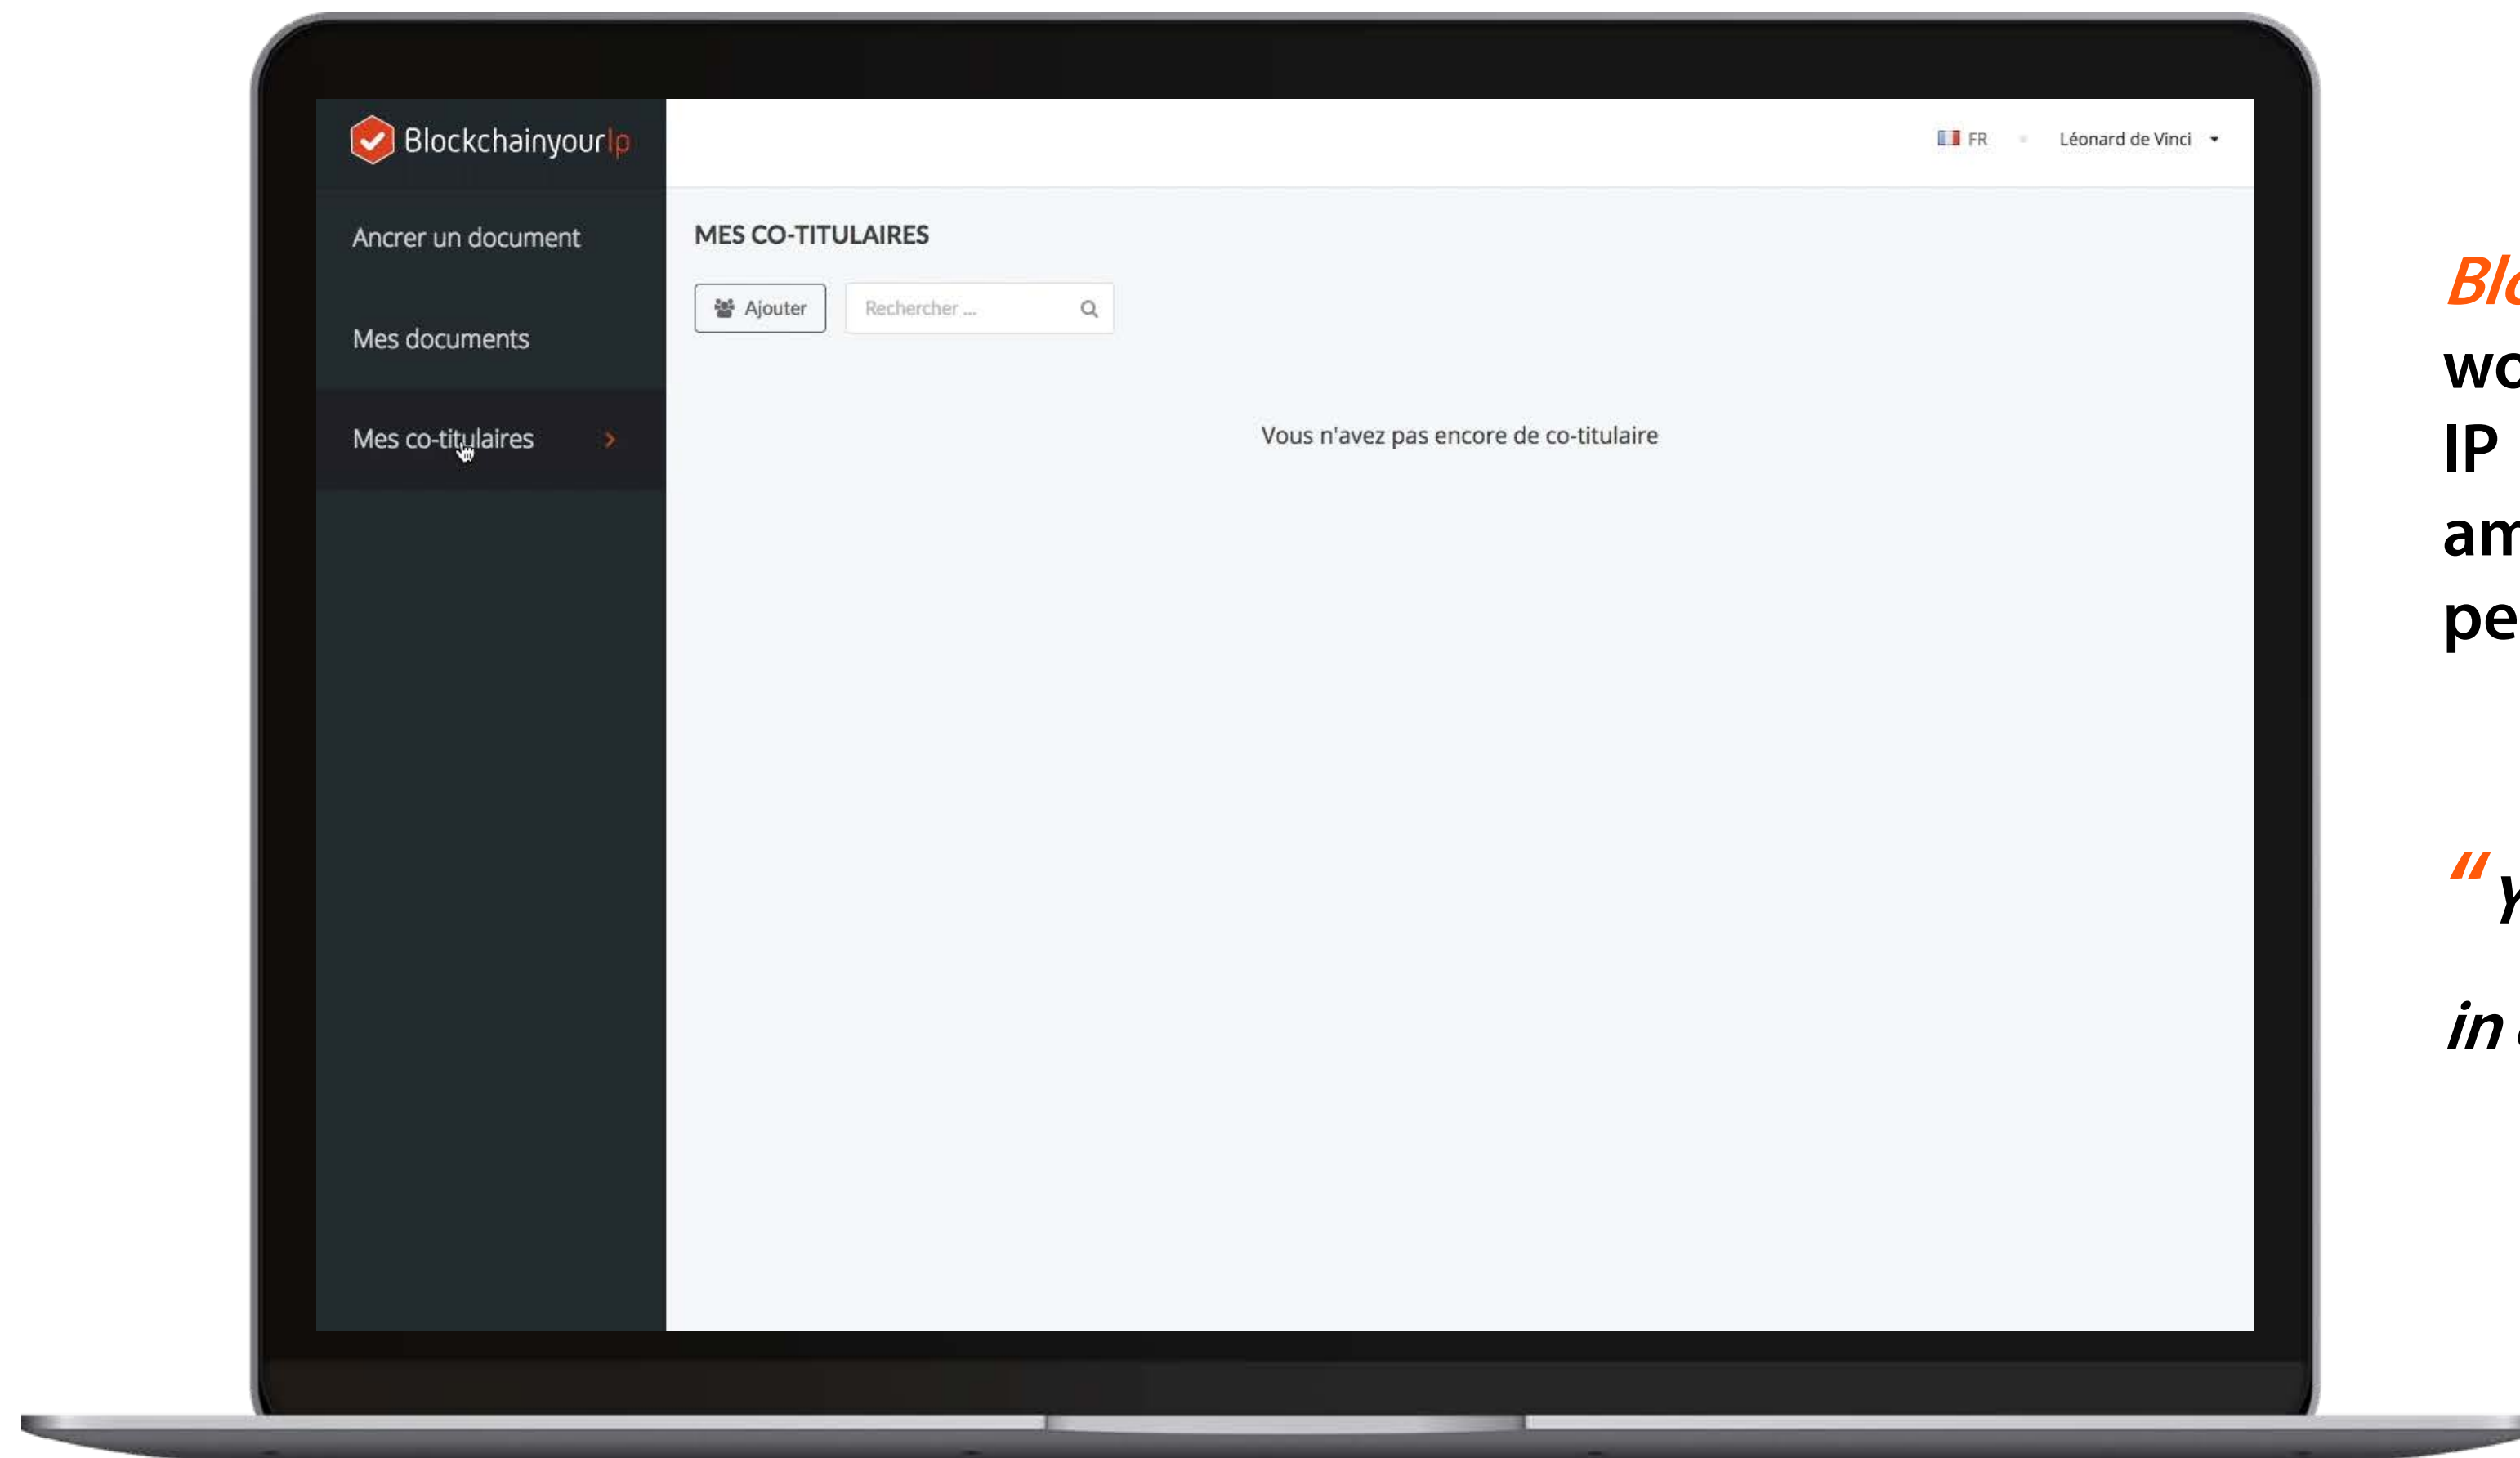

Access all your evidence finally gathered in a single place : *your dedicated space*

*BlockchainyourIP* is designed to allow you to easily find all your evidence of creation or innovation.

# COLLABORATE WITH OTHER CREATORS / INVENTORS

**BlockchainyourIP** is relevant for collaborative work: it allows you to organize the allocation of IP rights on your creations and innovations among several **co-owners** by assigning them a percentage of rights.

***“You can create and innovate alone or with others in complete legal security”***

# BENEFITS OF BLOCKCHAIN TECHNOLOGY IN IP EVIDENCE

The Bitcoin Blockchain technology offers highly interesting advantages to generate reliable proof of evidence in IP:

## Transparency

The proof can be independently checked at any time by anyone with Blockchain Bitcoin technology using open source tools.

## Tamper-proof and secure

The proof is recorded simultaneously on the different internet network "*nodes*", which makes it almost immutable.

## Simple and fast

The Bitcoin Blockchain simply and quickly generates proofs of existence, without the need for a trusted third party.

## International

Blockchain is international in nature: it uses a computer system which is the same in all countries of the world.

## Confidential

The creation or innovation is not disclosed to anyone when the corresponding fingerprint is calculated and inserted into a Blockchain Bitcoin transaction.

## Cost effective

Operating costs are very low.
